Tendulkar's footsteps as he begins the walk back to the pavilion. It's the end of an era, they said. No more switching off televisions when he got out; no more resounding chants of 'Sa-chi-i-i-n, Sa-chin!' In November 2013, Sachin Tendulkar played his final Test. Dilip D'Souza builds on close and detailed observation of those two and a half days, capturing all the hysteria it spawned, the love and adulation that showered from the rafters at the Wankhede, the choking emotion, and yes, there was a match on too, against the West Indies. Final Test discusses cricket from the old to the new, as Sachin takes to the pitch one final time.

NEET 2019 Biology Guide - 6th Edition

When Aakash Chopra started to write his diary in September 2007, he had no idea that it was going to be an extraordinary year, both for him personally, and for the game of cricket. It began with a great run in the Ranji, culminating in Delhi's victory. Delhi also went on to become North Zone champions, the North Zone won the Duleep Trophy, and in almost every game, Aakash was among the runs. He ended the season with 1339 runs from fifteen games, with five centuries that included three double centuries. Then came the IPL, with its glamorous tie-in with Bollywood. And Aakash found himself on the most talked about side of them all: the Kolkata Knight Riders. A view from within of all that made 2007 such an exciting year for cricketers and cricket lovers, this fast-paced and often tongue-in-cheek account takes us behind the scenes with an honesty and forthrightness uncommon to Indian sport.

The twelve texts discussed here include philosophical autobiography (Nietzsche), autobiographies of self-experimentation (Gandhi, Mishima, Warhol), literary autobiography (Hemingway, Das) as well as other genres of autobiography, including the graphic novel (Spiegelman, Satrapi), as also documentations of tragedy and injustice and subsequent spiritual overcoming (Ambedkar, Pawar, Angelou, Wiesel). In exploring different literary forms and orientations of the autobiographies, the work remains constantly attuned to the physical body, a focus generally absent from literary criticism and philosophy or study of leading historical personages, with the exception of patches within phenomenological philosophy and
