Exam Prep for: American Government and Politics Today, Brief

Two time Pulitzer Prize-winning historian Bernard Bailyn has distilled a lifetime of study into this brilliant illumination of the ideas and world of the Founding Fathers. In five succinct essays he reveals the origins, depth, and global impact of their extraordinary creativity. The opening essay illuminates the central importance of America's provincialism to the formation of a truly original political system. In the chapters following, he explores the ambiguities and achievements of Jefferson's career, Benjamin Franklin's changing image and supple diplomacy, the circumstances and impact of the Federalist Papers, and the continuing influence of American constitutional thought throughout the Atlantic world. To Begin the World Anew enlivens our appreciation of how America came to be and deepens our

understanding of the men who created it. From the Trade Paperback edition.

Exam Prep for: Bundle; American Government & Politics Today

A brilliant condemnation of political hobbyism—treating politics like entertainment—and a call to arms for well-meaning, well-informed citizens who consume political news, but do not take political action. Who is to blame for our broken politics? The uncomfortable answer to this question starts with ordinary citizens with good intentions. We vote (sometimes) and occasionally sign a petition or attend a rally. But we mainly “engage” by consuming politics as if it’s a sport or a hobby. We soak in daily political gossip and eat up statistics about who’s up and who’s down. We tweet and post and share. We crave outrage. The hours we spend on politics are used mainly as pastime. Instead, we should be spending the same number of hours building political organizations, implementing a long-term vision for our city or town, and getting to know our neighbors, whose votes will be needed for solving hard problems. We could be accumulating power so that when there are opportunities to make a difference—to lobby, to advocate, to mobilize—we will be ready. But most of us who are spending time on politics today are focused inward, choosing roles and activities designed for our short-term pleasure. We are repelled by the slow-and-steady activities that characterize service to the common good. In *Politics Is for Power*, pioneering and brilliant data analyst Eitan Hersh

shows us a way toward more effective political participation. Aided by political theory, history, cutting-edge social science, as well as remarkable stories of ordinary citizens who got off their couches and took political power seriously, this book shows us how to channel our energy away from political hobbyism and toward empowering our values.

To Begin the World Anew

United States document as a founding statement of our modern world.

Exam Prep for: Bundle; American Government and Politics

Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

Political Realism

A free eBook that asks hard questions about why

Read PDF American Government And Politics Today 2014 2015 Brief Edition

politics once worked, and how today's politics do not. What if idealistic reform itself is a culprit? In *Political Realism*, Jonathan Rauch argues that well-meaning efforts to stem corruption and increase participation have stripped political leaders and organizations of the tools they need to forge compromises and make them stick. Fortunately, he argues, much of the damage can be undone by rediscovering political realism. Instead of trying to drive private money away out of politics, how about channeling it to strengthen parties and leaders? Instead of doubling down on direct democracy, how about giving political professionals more influence over candidate nominations? Rauch shows how a new generation of realist thinkers is using timetested truths about politics and government to build reforms for our time. Rich with contrarian insights and fresh thinking, *Political Realism* is an eye-opening challenge to today's conventional wisdom about what ails American government and politics.

American Government and Politics Today, Brief

Clear, concise and straightforward, CALIFORNIA POLITICS AND GOVERNMENT: A PRACTICAL APPROACH, 14th Edition, is the most up-to-date and readable text on this subject. American Government and Politics Today 2017-2018

American Government and Politics Today: Essentials 2015-2016 Edition

Real People. Real Stories. Real Politics. Politics involves people, from many backgrounds, struggling to make their voices heard. Real people, telling their stories, reflect our ideals, choices, and collective experiences as a nation. In *American Government: Stories of a Nation*, author Scott Abernathy tunes in to these voices, showing how our diverse ideas shape the way we participate and behave, the laws we live

Read PDF American Government And Politics Today 2014 2015 Brief Edition

by, and the challenges we face. Each chapter features real stories illustrating how the American political system is the product of strategies, calculations, and miscalculations of countless individuals. Students learn the nuts and bolts of political science through these compelling stories. Learning concepts in context is a tested learning technique that works to help ideas stick. The key concepts are memorable because they are tied to real politics, where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas. Not only will all students see themselves reflected in the pages, but they will come to understand that they, too, are strategic players in American politics, with voices that matter. Just like the Full version, The Essentials edition is perfect for instructors who don't wish to cover the last three chapters on policy.

most gifted and astute journalists” (The New York Times Book Review) makes the historical case that the reforms of the 1960s, reforms intended to make the nation more just and humane, left many Americans feeling alienated, despised, misled—and ready to put an adventurer in the White House. Christopher Caldwell has spent years studying the liberal uprising of the 1960s and its unforeseen consequences and his conclusion is this: even the reforms that Americans love best have come with costs that are staggeringly high—in wealth, freedom, and social stability—and that have been spread unevenly among classes and generations. Caldwell reveals the real political turning points of the past half-century, taking you on a roller-coaster ride through Playboy magazine, affirmative action, CB radio, leveraged buyouts, iPhones, Oxycotin, Black Lives Matter, and internet cookies. In doing so, he shows that attempts to redress the injustices of the past have left Americans living under two different ideas of what it means to play by the rules. Essential, timely, hard to put down, *The Age of Entitlement* “is an eloquent and bracing book, full of insight” (New York magazine) about how the reforms of the past fifty years gave the country two incompatible political systems—and drove it toward conflict.

Studying Politics Today

What's So Great About America

In a campaign for state or local office these days, you're as likely today to hear accusations that an opponent advanced Obamacare or supported Donald Trump as you are to hear about issues affecting the state or local community. This is because American political behavior has become substantially more nationalized. American voters are far more engaged with and knowledgeable about what's happening in Washington, DC, than in similar messages whether they are in the South, the Northeast, or the Midwest. Gone are the days when all politics was local. With *The Increasingly United States*, Daniel J. Hopkins explores this trend and its implications for the American political system. The change is significant in part because it works against a key rationale of America's federalist system, which was built on the assumption that citizens would be more strongly attached to their states and localities. It also has profound implications for how voters are represented. If voters are well informed about state politics, for example, the governor has an incentive to deliver what voters—or at least a pivotal segment of them—want. But if voters are likely to back the same party in gubernatorial as in presidential elections

Read PDF American Government And Politics Today 2014 2015 Brief Edition

irrespective of the governor's actions in office, governors may instead come to see their ambitions as tethered more closely to their status in the national party.

American Government and Politics Today: No Separate Policy Chapters Version, 2015-2016 Edition (with MindTap Political Science Printed Access Card)

Thomas Hobbes' *Leviathan* is arguably the greatest piece of political philosophy written in the English language. Written in a time of great political turmoil (Hobbes' life spanned the reign of Charles I, the Civil Wars, the Commonwealth and the Protectorate, and the Restoration), *Leviathan* is an argument for obedience to authority grounded in an analysis of human nature. Since its first publication in 1991 Richard Tuck's edition of *Leviathan* has been recognised as the single most accurate and authoritative text, and for this revised edition Professor Tuck has provided a much amplified and expanded introduction, which will provide students unfamiliar with Hobbes with a cogent and accessible introduction to this most challenging of texts. Other vital aids to study include an extensive guide to further reading, a note on textual matters, a chronology of important events and brief biographies of important persons mentioned in Hobbes' text.
