The Football Ramble

The Handmaid's Tale meets The Hunger Games in this brilliantly imagined debut set in an ancient culture where only the queen may breed and deformity means death. Flora 717 is a sanitation worker, a member of the lowest caste in her orchard hive where work and sacrifice are the highest virtues and worship of the beloved Queen the only religion. But Flora is not like other bees. With circumstances threatening the hive's survival, her curiosity is regarded as a dangerous flaw but her courage and strength are an asset. She is allowed to feed the newborns in the royal nursery and then to become a forager, flying alone and free to collect pollen. She also finds her way into the Queen's inner sanctum, where she discovers mysteries about the hive that are both profound and ominous. But when Flora breaks the most sacred law of all—daring to challenge the Queen's fertility—enemies abound, from the fearsome fertility police who enforce the strict social hierarchy to the high priestesses jealously wedded to power. Her deepest instincts to serve and sacrifice are now overshadowed by an even deeper desire, a fierce maternal love that will bring her into conflict with her conscience, her heart, her society—and lead her to unthinkable deeds. Thrilling, suspenseful and spectacularly imaginative, The Bees gives us a dazzling young heroine and will change forever the way you look at the world outside your window.

"I bake because it connects my soul to my hands, and my heart to my mouth."—Martin Philip A brilliant, moving meditation on craft and love, and an intimate portrait of baking and our communion with food—complete with seventy-five original recipes and illustrated with dozens of photographs and original hand-drawn illustrations—from the head bread baker of King

Arthur Flour. Yearning for creative connection, Martin Philip traded his finance career in New York City for an entry-level baker position at King Arthur Flour in rural Vermont. A true Renaissance man, the opera singer, banjo player, and passionate amateur baker worked his way up, eventually becoming head bread baker. But Philip is not just a talented craftsman; he is a bread shaman. Being a baker isn't just mastering the chemistry of flour, salt, water, and yeast; it is being an alchemist—perfecting the transformation of simple ingredients into an elegant expression of the soul. *Breaking Bread* is an intimate tour of Philip's kitchen, mind, and heart. Through seventy-five original recipes and life stories told with incandescent prose, he shares not only the secrets to creating loaves of unparalleled beauty and flavor but the secrets to a good life. From the butter biscuits, pecan pie, and whiskey bread pudding of his childhood in the Ozarks to French baguettes and focaccias, bagels and muffins, cinnamon buns and ginger scones, *Breaking Bread* is a guide to wholeheartedly embracing the staff of life. Philip gently guides novice bakers and offers recipes and techniques for the most advanced levels. He also includes a substantial technical section covering the bread-making process, tools, and ingredients. As he illuminates an artisan's odyssey and a life lived passionately, he reveals how the act of baking offers spiritual connection to our pasts, our families, our culture and communities, and, ultimately, ourselves. Exquisite, sensuous, and delectable, *Breaking Bread* inspires us to take risks, make bolder choices, live more fully, and bake bread and break it with those we love.

Gleanings in Bee Culture

Baking is one of life's great pleasures and in this beautiful new National Trust cookery book Sybil Kapoor brings together an inspiring collection of baking recipes, both sweet and savoury. She delves into our kitchen gardens, larders, hedgerows and orchards to illustrate different aspects of modern British baking. She shows how key ingredients such as produce from the

orchard, grain from the mill or butter from the dairy have shaped British baking and led to a delicious and deservedly famous repertoire of cakes, pastries, savoury bakes and bread. Seville Orange Crunch Cake and Blackcurrant Meringue Pie are just a few of the simple cakes and tarts that can be prepared with fresh dairy ingredients, while pastry and breads from the mill provide a wholesome basis for Nectarine Slice and Olive and Onion scones. Harvest sumptuous apricots, cherries, pears and plums from the orchard for Apricot Creams and Chocolate pear cake, or use the natural abundance of wild herbs, mushrooms and nuts of the hedgerow to produce delicious almond blackberry cake or soft hazelnut macarons. Sybil's interests in nature and the use of seasonal and local produce reflect the National Trust's current food policy and combine to make this a unique and exciting baking book for our times.

Queen Bees looks at the lives of six remarkable women who made careers out of being society hostesses, including Lady Astor, who went on to become the first female MP, and Mrs Greville, who cultivated relationships with Edward VII, as well as Lady Londonderry, Lady Cunard, Laura Corrigan and Lady Colefax. Written with wit, verve and heart, Queen Bees is the story of a form of societal revolution, and the extraordinary women who helped it happen. In the aftermath of the First World War, the previously strict hierarchies of the British class system were weakened. For a number of ambitious, spirited women, this was the chance they needed to slip through the cracks and take their place at the top of society as the great hostesses of the time. In an age when the place of women was uncertain, becoming a hostess was not a chore, but a career choice, and though some of the hostesses' backgrounds were surprisingly humble, their aspirations were anything but. During the inter-war years these extraordinary women ruled over London society from their dining tables and salons - entertaining everyone from the Mosleys to the Mitfords, from millionaires to maharajahs, from film stars to royalty - and their influence can still be felt today.

Like volumes one and two, *Lost in the Jungle* features a glossary of terms and an experiment kids can do at home or at school.

The Natural Baker

HOW HAD MRS. OLINSKI CHOSEN her sixth-grade Academic Bowl team? She had a number of answers. But were any of them true? How had she really chosen Noah and Nadia and Ethan and Julian? And why did they make such a good team? It was a surprise to a lot of people when Mrs. Olinski's team won the sixth-grade Academic Bowl contest at Epiphany Middle School. It was an even bigger surprise when they beat the seventh grade and the eighth grade, too. And when they went on to even greater victories, everyone began to ask: How did it happen? It happened at least partly because Noah had been the best man (quite by accident) at the wedding of Ethan's grandmother and Nadia's grandfather. It happened because Nadia discovered that she could not let a lot of baby turtles die. It happened when Ethan could not let Julian face disaster alone. And it happened because Julian valued something important in himself and saw in the other three something he also valued. Mrs. Olinski, returning to teaching after having been injured in an automobile accident, found that her Academic Bowl team became her answer to finding confidence and success. What she did not know, at least at first, was that her team knew more than she did the answer to why they had been chosen. This is a tale about a team, a class, a school, a series of contests and, set in the midst of this, four jewel-like short stories -- one for each of the team members -- that ask questions and demonstrate surprising answers.
