Photo Adventures for Kids

On an otherwise serene 1989, June night, FBI agents are hustling to load up two large tractor-trailers. Their cargo is unusual. It consists of heavy filing cabinets, laboratory equipment, and chattering chimpanzees. Their motivation is far from altruistic. Their target of the operation is Doctor Cyrus Markum, a brilliant microbiologist. With the fortune bequeathed by his former life-partner, he's funded the research project that has created Formula Thirteen, the vaccine that will thwart the virus causing AIDS. The Feds are far from enthused with his initiative. They dispatch their agents to eradicate any trace of the lifesaving antibodies and emasculate its creator. The pompous autocrats have gravely miscalculated. They've unleashed a ravenous lion. Doctor Markum chooses Daniel Dundee, a televangelist, as the pivot point in his blueprint of retribution and convinces the Bavarian Illuminati that the time has arrived for their all-encompassing revolution. The TV broadcast of the "New Age Messiah's" assassination will be the tipping point for the scheme, which will cause a chain reaction that will lead to the New

World Order's absolute planetary domination. The Doctor's enterprise is expansive and ingenious, but the Illuminati's Trilateral Commission has a strategy of their own.
