Walking to Hollywood is a dazzling triptych - obsessive, satirical, elegiac - in which Will Self burrows down through the intersections of time, place and psyche to explore some of our deepest fears and anxieties with characteristic fearlessness and jagged humour. 'Very Little' is ostensibly the account of a curative journey to Canada and the USA, but in fact the record of a nematode's progress, as the worm of obsession - with scale and packing and the 'stuff' of our lives - bores through a mind in extremis. 'Walking to Hollywood' is an extreme satire on celebrity, in which the narrator believes that everyone he meets is played by a famous actor, and that only he can solve the mystery of who murdered the movies. 'Spurn Head' leads Self to a tormented sojourn with a madman whose house is sliding over the edge of a cliff, to a game of checkers with Death, and finally to an encounter with one of Swift's immortal Struldbruggs and a march through a tear in time itself. In Walking to Hollywood Will Self pushes memoir to the limits of invention.

From the eighteenth century, York was one of the places employing its own hangmen, copying London and Newgate, even to the use of the word Tyburn to define its Knavesmire gallows, also known as the 'three-legged mare'. That was where highwayman Dick Turpin met his fate; but later, in the Victorian period, Armley Gaol in Leeds also became a hanging prison, the site of the death of the notorious killer Charlie Peace. The tales of the villains and the victims are well documented, but Stephen Wade also provides us with the stories of both Yorkshire-born hangmen and others who worked in Leeds, Hull or Wakefield. For the first time, Yorkshire's Hangmen brings together the tales of the lives and professional careers of these men, some famous, others long forgotten, who held a morbid fascination for the public. Their trade was mysterious, revolting and yet justified by many famous figures in history. The book includes accounts of killers, spies and traitors meeting their doom, but also tells something of the personalities of the hangmen, and of their moral dilemmas as they had to hang women and young people as well as hardened villains. Many of the executioners suffered terrible depression; some took their own lives, and others, such as the famous Albert Pierrepoint, even questioned their work in later life.

The world is getting hotter, there's unrest overseas—the seas themselves aren't very calm—and one couple is thinking about having a child. Lungs is a smart and funny drama that follows a couple through the surprising lifecycle of their relationship, as they grapple with questions of family and change, hope, betrayal, happenstance, and the terrible pain that you can only cause the people you love.

A full English breakfast is a morning meal served at many British bed & breakfasts. This meal has all the trimmings: coffee, tea, orange juice, fruit, cereal, eggs, sausages, bacon, toast, tomatoes, mushrooms, and a host of other offerings including orange marmalade and brown sauce. A ramble might be a wandering narrative, but it can also be a leisurely excursion, taking in the pleasures of the land and the peoples of the region and enjoying every minute of it (well, almost). In this trek through London, Cardiff, York, and Thirsk, you'll encounter — along with the author and his brother, Bill — historical tourist sites, the London Underground, and public houses. Nods are given to The Beatles, Monty Python, James Herriot, and also to an impatient train car attendant, short-legged field trippers, Americans attempting to find some real food in London, as well as many other lively characters and situations. Whether you've been considering a trip to Britain, you've already visited Britain, you live in Britain, or you are content to relax in an armchair reading about Britain, Todd Wisti provides a healthy dosage of wry humor and sometimes misshapen adventures in Full English Breakfast. Foreword by Bill Wisti
