School Life

A Brilliant Solution

Where did the American democratic tradition begin? From ancient civilizations in Greece and Rome to the Enlightenment in Europe, democratic ideas throughout time have influenced the development of democracy in the United States. In *The U.S. Constitution: Discover How Democracy Works*, children ages 9 through 12 learn about the foundation of democracy and how the documents crafted hundreds of years ago still have an impact on our country today. They explore the Declaration of Independence, U.S. Constitution, and the Bill of Rights, among others. These documents provide a framework with which we make the laws and processes that help keep democracy a vital paradigm. Through hands-on projects, which include analyzing how the promises made in the Preamble of the Constitution were put into practice and investigating how to balance the freedom of speech in the digital age, students investigate how American democracy operates. With colorful illustrations, interesting sidebars, and links to online primary sources, this book asks readers to consider the effect of technology on democracy and make predictions about future documents that will be important to the preservation of democracy around the world.

Washington's Farewell Address to the People of the United States, 1796

Creating U.S. Democracy: Key Civil Rights Acts, Constitutional Amendments, Supreme Court Decisions & Acts of Foreign Policy (Including Declaration of Independence, Constitution & Bill of Rights)

Real People. Real Stories. Real Politics. Politics involves people, from many backgrounds, struggling to make their voices heard. Real people, telling their stories, reflect our ideals, choices, and collective experiences as a nation. In *American Government: Stories of a Nation*, author Scott Abernathy tunes in to these voices, showing how our diverse ideas shape the way we participate and behave, the laws we live by, and the challenges we face. Each chapter features real stories illustrating how the American political system is the product of strategies, calculations, and miscalculations of countless individuals. Students learn the nuts and bolts of political science through these compelling stories. Learning concepts in context is a tested learning technique that works to help ideas stick. The key concepts are memorable because they are tied to real politics, where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas. Not only will all students see themselves reflected in the pages, but they will come to understand that they, too, are strategic players in American politics, with voices that matter. Just like the Full version, The Essentials edition is perfect for instructors who don't wish to cover the last three chapters on policy.

Constitutional Law

This is a unique collection of U.S. Government legal documents that shaped and built the American democracy. From the Declaration of Independence to the Civil Rights Act of 1968, this collection contains 40 most important acts and decisions which forged the legal system and democratic principles of USA: Declaration of Independence (1776) U.S. Constitution (1787) Bill of Rights (1791) Amendments (1792-1991) The Federalist Papers (1787-1788) Marbury v. Madison (1803) The Louisiana Purchase Treaty (1803) Treaty of Ghent (1814) Monroe Doctrine (1823) Treaty of Guadalupe Hidalgo (1848) Emancipation Proclamation (1863) Gettysburg Address (1863) The Civil Rights Act of 1866 Treaty of Fort Laramie/Sioux Treaty (1868) The Enforcement Act of 1870 The Second Enforcement Act of 1871 (Ku Klux Klan Act of 1871) Civil Rights Act of 1875 Interstate Commerce Act (1887) Dawes Act (1887) Sherman Anti-Trust Act (1890) Plessy v. Ferguson (1896) Keating-Owen Child Labor Act of 1916 (1916) President Woodrow Wilson's 14 Point Program (1918) National Industrial Recovery Act (1933) Social Security Act (1935) Lend-Lease Act (1941) Brown v. Board of Education (1954) Civil Rights Act of 1957 Civil Rights Act of 1960 Establishment of the Peace Corps (1961) Test Ban Treaty (1963) Equal Pay Act of 1963 Civil Rights Act of 1964 Tonkin Gulf Resolution (1964) Heart of Atlanta Motel, Inc. v. United States (1964) Voting Rights Act (1965) Loving v. Virginia (1967) Civil Rights Act of 1968 Rehabilitation Act of 1973 Pregnancy Discrimination Act of 1978

The Spirit of Laws

The Spirit of Laws is a treatise on political theory first published by Charles de Secondat, Baron de Montesquieu in 1748. Montesquieu pleaded in favor of a constitutional system of government and the separation of powers, the ending of slavery, the preservation of civil liberties and the law, and the idea that political institutions ought to reflect the social and geographical aspects of each community.

American Government

Presents an illustrated version of the preamble to the Constitution of the United States.

Power to Regulate Commerce: Limits on Congressional Power

Common Sense

Judges and Courts

Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

American Government

Classic Books Library presents this brand new edition of “The Federalist Papers”, a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. “The Federalist”, as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American

lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Preparing for the United States Naturalization Test

In *The Presidency Then and Now*, leading political scientists and historians assess the development of the presidency and its role in today's political landscape. The questions addressed in this wide-ranging volume include: How has the doctrine of separation of powers evolved? How have presidential campaigns and presidential oratory influenced the constitutional character of the institution? How does the scandal-driven press coverage of the post-Vietnam and post-Watergate presidency compare with the partisan press of the early republic? Among other topics, the contributors examine the early precedents and modern manifestations of the executive veto, executive privilege, and presidential use of force doctrine, and chart the shift from a constitutionally circumspect and constrained chief executive toward the modern notion of a plebiscitary presidency. *The Presidency Then and Now* assesses several key trends in presidential leadership including the recent movement toward a policy-centered presidency in which detailed policy development has at times supplanted broad vision and historically informed judgment. Other essays address such topics as the transformation of the Cabinet from a body whose members possessed stature equal to the president to a largely symbolic group that has been replaced in its advisory capacity by the White House staff. *The Presidency Then and Now* makes a case for returning to constitutional, reasoned deliberation and replacing modern fixation on 'celebrity' status with the founders' notion of 'stature.' By drawing comparisons between the old and the new, *The Presidency Then and Now* offers timely and incisive insights that will appeal not only to scholars of the presidency but to historians and general readers interested in the constitutional foundations, philosophical debates, and key political developments that have affected the presidential office over time.

American Government

Published by OpenStax College, *U.S. History* covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. *U.S. History* is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

We the Kids

U.S. History

A Pulitzer Prize-winning historian serves as a guide to the U.S. Constitution and Declaration of Independence, providing historical contexts and offering interpretive commentary.

American Government and Politics Today: No Separate Policy Chapters Version, 2015-2016 Edition (with MindTap Political Science Printed Access Card)

In this unit you can play games that Russian children have been playing for centuries, make a cosmonaut craft of the Baikonur Cosmodrome in Kazakhstan, craft a lapbook of the history of science, and try your hand at some real watercolor painting projects. There are dozens of projects to choose from in Unit 3-10. In each unit you'll find a recommended library list, important background information about each topic, lots of activities to choose from for kids of all ages, and sidebars with a bunch more ideas including Additional Layers, Fabulous Facts, On The Web, Writer's Workshop, Famous Folks, and Teaching Tips. Printable maps and worksheets are included at the end of each unit and may be printed as often as needed for your family or class.

Shh! we're writing the Constitution

Constitutional Law: Power, Liberty, Equality presents most of the constitutional law cases generally considered canonical and, with one important exception, follows the tried and true organizational means widely used in constitutional law texts of dividing chapters and sections are along subject matter lines such as the Commerce Clause, equal protection, freedom of expression, and so on. Nonetheless, this book differs from other constitutional law textbooks in important ways. The text introduces cases by providing contextual information and by explicitly articulating much of the black letter law being introduced. Under this structure the cases provide the student with the opportunity to more easily see the difference between the doctrine per se and how it is actually developed and used by the Court. Cases become examples of the rules being applied and vehicles for deeper exploration of broader principles and themes.

The Presidency Then and Now

What is the judicial branch? It's the part of government that's in charge of our courts. But just what do the courts do? And how do they affect your daily life? Read this book to find out.

The Annotated U.S. Constitution and Declaration of Independence

A Defence of the Constitutions of Government of the United States of America

The Use and Application of the Line Item Veto

Layers of Learning

We know--and love--the story of the American Revolution, from the Declaration of Independence to Cornwallis's defeat. But our first government was a disaster and the country was in a terrible crisis. So when a group of men traveled to Philadelphia in the summer of 1787 to save a nation in danger of collapse, they had no great expectations for the meeting that would make history. But all the ideas, arguments, and compromises led to a great thing: a constitution and a government were born that have surpassed the founders' greatest hopes. Revisiting all the original documents and using her deep knowledge of eighteenth-century history and politics, Carol Berkin takes a fresh look at the men who framed the Constitution, the issues they faced, and the times they lived in. Berkin transports the reader into the hearts and minds of the founders, exposing their fears and their limited expectations of success.

American Government

Presidential Succession Act: hearing before the Subcommittee on the Constitution of the Committee on the Judiciary, House of Representatives, One Hundred Eighth Congress, second session, October 6, 2004.

The Origin and Growth of the American Constitution

The Words We Live By

THE WORDS WE LIVE BY takes an entertaining and informative look at America's most important historical document, now with discussions on new rulings on hot button issues such as immigration, gay marriage, gun control, and affirmative action. In THE WORDS WE LIVE BY, Linda Monk probes the idea that the Constitution may seem to offer cut-and-dried answers to questions regarding personal rights, but the interpretations of this hallowed document are nearly infinite. For example, in the debate over gun control, does "the right of the people to bear arms" as stated in the Second Amendment pertain to individual citizens or regulated militias? What do scholars say? Should the Internet be regulated and censored, or does this impinge on the freedom of speech as defined in the First Amendment? These and other issues vary depending on the interpretation of the Constitution. Through entertaining and informative annotations, THE WORDS WE LIVE BY offers a new way of looking at the Constitution. Its pages reflect a critical, respectful and appreciative look at one of history's greatest documents. THE WORDS WE LIVE BY is filled with a rich and engaging historical perspective along with enough surprises and fascinating facts and illustrations to prove that your Constitution is a living--and entertaining--document. Updated now for the first time, THE WORDS WE LIVE BY continues to take an entertaining and informative look at America's most important historical document, now with discussions on new rulings on hot button issues such as immigration, gay marriage, and affirmative action.

Constitution

Exploring Government

MAGRUDER' S 2007 AMERICAN GOVERNMENT

This is the second volume of John Adams' monumental three-volume defense of the United States Constitution. Adams articulates the classical republican theory of mixed government.

The Basics of American Government

The Basics of American Government is a collaborative effort among eight current and one former faculty members in the Departments of Political Science and Criminal Justice at University of North Georgia. The purpose of this book is to offer a no-frills, low-cost, yet comprehensive overview of the American political system for students taking introductory courses in American national government. Furthermore, the work combines the best aspects of both a traditional textbook and a reader in that most chapters offer a piece of original scholarship as a case study to bolster or reinforce the material presented in the chapter. In addition, many chapters present a civic engagement-type exercise and discussion questions intended to challenge, engage, and foster student participation in the political system. The authors undertook this project for several reasons, most notably the

high costs of textbooks for students and the lack of college-level scholarship found in most American Government texts. This 375-page, peer-reviewed, edited book that combines traditional material with original scholarship will cost students \$27.99, well below market standards. All of the authors are experienced classroom instructors, subject matter experts, and published researchers in the field of American politics.

Presidential Succession Act

Hailed as a stellar educational resource since 1917, Magruder's American Government is updated annually to incorporate the most current, most authoritative American Government content, and meet the changing needs of today's high school students and teachers. Teacher's All-in-One Resources with Editable Worksheets on CD-ROM CD-ROM includes Teacher's Edition and a wide range of on-level and Foundations lesson plans, worksheets, and assessments. This built-in differentiation allows teachers to pick and choose among the resources that meet the needs of all students!

The Magna Carta

In America's Constitution, one of this era's most accomplished constitutional law scholars, Akhil Reed Amar, gives the first comprehensive account of one of the world's great political texts. Incisive, entertaining, and occasionally controversial, this "biography" of America's framing document explains not only what the

Constitution says but also why the Constitution says it. We all know this much: the Constitution is neither immutable nor perfect. Amar shows us how the story of this one relatively compact document reflects the story of America more generally. (For example, much of the Constitution, including the glorious-sounding “We the People,” was lifted from existing American legal texts, including early state constitutions.) In short, the Constitution was as much a product of its environment as it was a product of its individual creators’ inspired genius. Despite the Constitution’s flaws, its role in guiding our republic has been nothing short of amazing. Skillfully placing the document in the context of late-eighteenth-century American politics, America’s Constitution explains, for instance, whether there is anything in the Constitution that is unamendable; the reason America adopted an electoral college; why a president must be at least thirty-five years old; and why—for now, at least—only those citizens who were born under the American flag can become president. From his unique perspective, Amar also gives us unconventional wisdom about the Constitution and its significance throughout the nation’s history. For one thing, we see that the Constitution has been far more democratic than is conventionally understood. Even though the document was drafted by white landholders, a remarkably large number of citizens (by the standards of 1787) were allowed to vote up or down on it, and the document’s later amendments eventually extended the vote to virtually all Americans. We also learn that the Founders’ Constitution was far more slavocratic than many would acknowledge: the “three fifths” clause gave the South extra political clout for every slave it owned or acquired. As a result, slaveholding Virginians held the presidency all but four of the Republic’s first thirty-six years, and proslavery forces eventually came to dominate much of the federal government prior to Lincoln’s election. Ambitious, even-handed, eminently accessible, and often surprising, America’s Constitution is an indispensable work, bound to become a standard reference for any student of history and all citizens of the United States.

The Story of the Constitution

Addressed to the Inhabitants of America, on the Following Interesting Subjects, viz.: I. Of the Origin and Design of Government in General, with Concise Remarks on the English Constitution. II. Of Monarchy and Hereditary Succession. III. Thoughts on the Present State of American Affairs. IV. Of the Present Ability of America, with some Miscellaneous Reflections

America's Constitution

Presents relevant standards-based content that targets student interest to stimulate and encourage learning. Includes case studies, thought-provoking questions, and simulations, and develops 21st century skills in students so that they can apply what they learn and participate as effective and responsible citizens.
