DO you suffer from back or muscle pain? DOES the pain interfere with your life? DID you know poor posture is at the root of the majority of these problems? Poor posture can interfere with your mobility, breathing, circulation and digestion. It can contribute to overuse injuries to hands, arms and shoulders. It can affect your sense of wellbeing. IS there anything you can do to help yourself? With the help of this book the answer is a resounding – YES! Drawing on her 30 years of experience as a teacher of the Alexander Technique, Carolyn Nicholls explains exactly how to eliminate tension throughout your body and improve your habitual patterns of movement. Carolyn identifies typical behaviours that can result in unhealthy posture and explains how they can be improved. The Posture Workbook illustrates 5 key exercises to improve posture, awareness, flexibility and mobility. These '5-A-Day' exercises will teach you how to move more freely and easily and show you how to live your life free from postural pain. Carolyn is the founder and Head of Training at the Brighton Alexander Technique College, UK and a national advisor on clinical trials on back pain. Her first book, *Body, Breath and Being* – a new guide to the Alexander Technique is a great critical and commercial success.

When the numbers just don't add up Following in the footsteps of the successful The Humongous Books of Calculus Problems, bestselling author Michael Kelley has taken a typical algebra workbook, and made notes in the margins, adding missing steps and simplifying concepts and solutions. Students will learn how to interpret and solve 1000 problems as they are typically presented in algebra courses-and become prepared to solve those problems that were never discussed in class but always seem to find their way onto exams. Annotations throughout the text clarify each problem and fill in missing steps needed to reach the solution, making this book like no other algebra workbook on the market.

"Beating the CSET!" will help both pre-service and practicing teachers in California pass the CSET Multiple Subjects Subtests I - III. Because passing the CSET Multiple

Subjects test is now required for an elementary credential in California, this new text has been designed to address the essential time-management methods, essay and multiple-choice strategies, and content that test takers must master in order to pass Subtests One through Three of the exam. Unlike other preparation books, this text does not simply offer a copy of MSAT materials. Instead, the content, constructed-response and multiple-choice strategies, and special time-management models for the tests are all research based and tailored to CSET Multiple Subject content in great detail. People who used "Beating the CSET!" report: "I took all three sections of the CSET and passed- the first time! The invaluable time-management, scoring, essay and multiple-choice approaches all worked for each of the subtests, and the content is in abundance. I know for a fact that "Beating the CSET!" is the reason that I passed. Based on my success, I strongly recommend this book to everyone." "Sarah S., elementary teacher, McSwain Elementary School District" ""Beating the CSET!" helped me to manage my time during the test and provided guidelines and strategies that were helpful in making sure that I achieved a passing score. It also provided additional information as well as other resources to aide in my preparation. I highly recommend this text to anyone who wants to be prepared to pass this test the first time." variety of college-101 courses. They are designed as a set of classroom "notes" that reflect typical lecture material presented in a classroom over the course of a semester. As such, they make handy supplements to college textbooks and serve as valuable pre-exam reviews. This overview of statistics covers nine general themes: descriptive statistics, shape, probability, probability distributions, planning a study, the population proportion, the population mean, Chi-square analysis, and regression analysis.

## **Praxis Middle School Math 5169 Study Guide**

This is a timely and affordable study guide for the PRAXIS 5001 teacher certification test. Testing of new standards begins August 2015. This is the only product on the market that has EXPANDED, aligned content and a full sample test with answer explanations. Many states -- but not all -- that formerly required 5031 have adopted test 5001. Changes include almost doubling the coverage of content. The skills have expanded in ELA and math. The test formerly had 210 questions and now has 235 questions. The number of social science questions will be reduced by ten questions. This product provides a highway to success, quickly and efficiently gathering more content succinctly, including each of the four subtests, aligned expanded descriptive statements, with their corresponding numerous and authoritative examples. Since Praxis 5001 is an unusually long test, it is in the candidate's best interest to augment this study guide with our additional suite of

digital products which include interactive bundled tests that are comprised of questions from three tests, that include time on question as well as time on test. By contrast, this product is not a broad review of subtests with generic videos or generic categories clustered under subtests, because it defeats the purpose of PRAXIS specificity. Our sample test questions are aligned to specific skills. In conclusion, this product is unique because of its specific content, unpacked deliberately, with standards-aligned sample test questions and explanations. Common Core standards have been added."
