Images and Words

In a not so distant future, our world returns to feudalism. Only this time, the powerful control the servant class with the very thing that once inspired revolution-music. Not the music of old. A new music engineered entirely by machines. But one person fights back with music as a human expression. That fight brings pain. And perhaps redemption.

The gods who created this world have abandoned it. In their mercy, however, they chained the rogue god--and the monstrous creatures he created to plague mortalkind--in the vast and inhospitable wasteland of the Bourne. The magical Veil that contains them has protected humankind for millennia and the monsters are little more than tales told to frighten children. But the Veil has become weak and creatures of Nightmare have come through. To fight them, the races of men must form a great alliance to try and stop the creatures. But there is dissent. One king won't answer the call, his pride blinding him even to the poison in his own court. Another would see Convocation fail for his own political advantage. And still others believe Convocation is not enough. Some turn to the talents of the Sheason, who can shape the very essence of the world to their will. But their order is divided, on the brink of collapse. Tahn Junell remembers friends who despaired in a place left barren by war. One of the few who have actually faced the unspeakable horde in battle, Tahn sees something else at work and wonders about the nature of the creatures on the other side of the Veil. He chooses to go to a place of his youth, a place of science, daring to think he can find a way to prevent slaughter, prevent war. And his choices may reshape a world The second title in the Vault of Heaven series, Peter Orullian's Trial of Intentions is a mesmerizing fantasy epic that turns the conventions of the genre on its head

The Dream Theater Keyboard Experience

No other band has affected modern progressive metal as deeply or widely as American quintet Dream Theater. Formed at Berklee College of Music as Majesty in 1985 by guitarist John Petrucci, drummer Mike Portnoy, and bassist John Myung, the group has spent thirty years repeatedly pushing new boundaries and reinventing their identity. Although other acts - such as Queensrÿche and Fates Warning - paved the way for the prog-metal subgenre, Dream Theater were without doubt the first to meld influences from both metal and progressive rock into a groundbreaking blend of quirky instrumentation, extensively complex arrangements, and exceptional songwriting. Whether subtly or overtly, they've since left their mark on just about every progressive metal band that's followed. In this book, Jordan Blum examines virtually all Dream Theater collections, and their behind-the-scenes circumstances, to explore how the group distinctively impacted the genre with each release. Whether classics of the 1990s like Images and Words and Metropolis Pt. 2: Scenes from a Memory, benchmarks of the 2000s like Six Degrees of Inner Turbulence and Octavarium, or even thrilling modern efforts like A Dramatic Turn of Events and Distance Over Time, every sequence of albums contributes something crucial to making Dream Theater's legacy nothing short of astonishing.

Mean Deviation

Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban

and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.

The Astonishing

Dream Theater is an American progressive rock band formed in 1985 under the name Majesty by John Petrucci, John Myung, and Mike Portnoy while they attended Berklee College of Music in Boston, Massachusetts. They subsequently dropped out of their studies to concentrate further on the band that would ultimately become Dream Theater. Though a number of lineup changes followed, the three original members remained together along with James LaBrie and Jordan Rudess until September 8, 2010, when Portnoy left the band. In October 2010, the band held auditions for a drummer to replace Portnoy. Mike Mangini was announced as the new permanent drummer on April 29, 2011.

Dream Theater - Selections from the Astonishing

This anthology explores how theatre and performance use home as the prism through which we reconcile shifts in national, cultural, and personal identity. Whether examining parlor dramas and kitchen sink realism, site-specific theatre, travelling tent shows, domestic labor, border performances, fences, or front yards, these essays demonstrate how dreams of home are enmeshed with notions of neighborhood, community, politics, and memory. Recognizing the family home as a symbolic space that extends far beyond its walls, the nine contributors to this collection study diverse English-language performances from the US, Ireland, and Canada. These scholars of theatre history, dramaturgy, performance, cultural studies, feminist and gender studies, and critical race studies also consider the value of home at a time increasingly defined by crises of homelessness — a moment when major cities face affordable housing shortages, when debates about homeland and citizenship have dominated international elections, and when conflicts and natural disasters have displaced millions. Global struggles over immigration, sanctuary, refugee status and migrant labor make the stakes of home and homelessness ever more urgent and visible, as this timely collection reveals.
