Pim is a baby aardvark - or at least he thinks he is. But what does that mean? When he finds out that he cannot climb trees or dig deep burrows, he feels a

little disappointed. But, as time goes by, he realises that being an aardvark isn't so bad after all.

Historical Essay on the Neapolitan Revolution of 1799

This letter is your death sentence. To avenge what you have done you will die. But what has Manno the pharmacist done? Nothing that he can think of. The next day he and his hunting companion are both dead. The police investigation is inconclusive. However, a modest high school teacher with a literary bent has noticed a clue that, he believes, will allow him to trace the killer. Patiently, methodically, he begins to untangle a web of erotic intrigue and political calculation. But the results of his amateur sleuthing are unexpected--and tragic. *To Each His Own* is one of the masterworks of the great Sicilian novelist Leonardo Sciascia--a gripping and unconventional detective story that is also an anatomy of a society founded on secrets, lies, collusion, and violence.

Maigret at Picratt's

This volume brings together contributions from leading scholars to ask: What should be done to improve the quality of people's lives? Can economic and social changes be made which enhance well-being? What policies are required? How do policies for well-being differ from traditional ones targeted on redistribution, the correction of market inefficiencies, and growth? Are there dimensions of well-being that have been neglected by traditional policies? Is happiness a meaningful policy target?

Economia canaglia. Il lato oscuro del nuovo ordine mondiale

From Montreal to Bar Harbour, Louisiana via New York and Florida, former bush pilot and photographer Jack leads us on a quest to conquer the shadows of a past life and into the heart of an ultimately warm and heady universe. Peace comes at a price and sometimes that price means burning bridges. Jack and Monica broke up a long time ago, but there is still something broken inside. After years of silence, the truce is over when Tristan, Monica's younger brother, reappears in Jack's life. Memories may have been buried deep, but there is no escaping the force of

erosion. Tristan talks Jack into a road trip, a trip without a destination, where the point is to keep moving and open oneself up to chance. What follows is a trip and an encounter with Nuna, the young woman with disorienting eyes. But a triangle doesn't always travel easily, desire being a dangerous fuel. Guillaume Vigneault gives ample proof in this novel of his gift for translating subtle affairs of the heart. In elegant, measured prose, he paints a portrait of loving and leaving by a new generation.

Italo Calvino imagines a novel capable of endless mutations in this intricately crafted story about writing and readers. If on a Winter's Night a Traveler turns out to be not one novel but ten, each with a different plot, style, ambience, and author, and each interrupted at a moment of suspense. Together they form a labyrinth of literatures, known and unknown, alive and extinct, through which two readers, a male and a female, pursue both the story lines that intrigue them and one another.

Necessary Betrayals

A powerful and sophisticated underground business delivers thousands of refugees a day all along the Mediterranean coasts of Europe. The new breed of criminals that controls it has risen out of the political chaos of post-9/11 Western foreign policy and the fiasco of the Arab Spring. These merchants of men are intertwined with jihadist armed organizations such as al Qaeda in the Maghreb. They have prospered smuggling cocaine from West Africa and kidnapping Westerners. More recently, the destabilization of Syria and Iraq coupled with the rise of ISIS offered them new business opportunities in the Middle East, from selling Western hostages to jihadist groups to trafficking in refugees numbering in the millions. Overall, the kidnapping industry today is bigger than the illegal drug trade and worth hundreds of billions of dollars annually. Merchants of Men is based on exclusive access to hostage negotiators actively involved in ransom negotiations and rescue missions, counter-terrorism experts, members of security

services, and former hostages, among many others. The reader will discover that the protocols of prevention and rescue change according to the type of abduction and the designated targets, and will come to know first hand the range of experiences of kidnapping victims. Will the West once again reap the benefits of the political chaos it has sown in its own backyard? From colonization to the advent of "friendly" dictatorial regimes, today's fast-aging European nations are buyers on the refugee market. New workers are needed, and the merchants of men are supplying them. But only skilled, highly educated refugees are wanted. As a tsunami of migrants and refugees floods Europe, new questions almost too numerous to count must be answered.

Merini, like Dante, represents the story of the Exodus of the Israelites from Egypt, in its literal and allegorical senses. The forty poems of *The Holy Land* recall Moses at Mount Sinai, the Israelites' forty years in the desert, and Jesus' fast in the wilderness. For Merini, it seems, the Holy Land is not the Promised Land of Canaan, but the forty years spent getting there, coming to terms with the terrifying atrocities of hell, the mystical ecstasies of paradise, and the "intense pain of plunging back into the banality of daily living." Merini's wandering may be understood as the poet's search for the obscure laws which govern her visions, metamorphoses, and creations.

The 'vices' are three bad habits into which economists have fallen over the past fifty years: bad statistics, bad theory, and bad applications of statistics and theory to public affairs. This book details the vices, tracing them to the influence of three giants of the 1940s and 1950s in economics, the Americans Lawrence Klein and Paul Samuelson, and the Dutchman Jan Tinbergen. McCloskey recommends a 'bourgeois', even feminine, virtue to replace the aristocratic and masculine vices of modern economics. She sees intellectual life as a bourgeois market of negotiating equals. What is good for a liberal democracy is good for intellectual life, she argues, even in the forbiddingly mathematical world of modern economics.

FINALIST FOR THE 2017 PEN TRANSLATION PRIZE
From the author of *The Door*, selected as one of the New York Times "10 Best Books of 2015," this is a heartwrenching tale about a group of friends and lovers torn apart by the German occupation of

Budapest during World War II. In prewar Budapest three families live side by side on gracious Katalin Street, their lives closely intertwined. A game is played by the four children in which Bálint, the promising son of the Major, invariably chooses Irén Elekes, the headmaster's dutiful elder daughter, over her younger sister, the scatterbrained Blanka, and little Henriette Held, the daughter of the Jewish dentist. Their lives are torn apart in 1944 by the German occupation, which only the Elekes family survives intact. The postwar regime relocates them to a cramped Soviet-style apartment and they struggle to come to terms with social and political change, personal loss, and unstated feelings of guilt over the deportation of the Held parents and the death of little Henriette, who had been left in their protection. But the girl survives in a miasmal afterlife, and reappears at key moments as a mute witness to the inescapable power of past events. As in *The Door and Iza's Ballad*, Magda Szabó conducts a clear-eyed investigation into the ways in which we inflict suffering on those we love. *Katalin Street*, which won the 2007 Prix Cévennes for Best European novel, is a poignant, somber, at times harrowing book, but beautifully conceived and truly unforgettable.

"Anne Tyler is a magical writer." —Los Angeles Times
Mrs. Emerson, widowed with seven adult children, lives alone in crumbling Victorian mansion outside Baltimore with only a collection of antique clocks to keep her company. Elizabeth Abbott—twenty-three

years old, aimless, bohemian, and beautiful—leads a vagabond lifestyle until she happens upon Mrs. Emerson's home and convinces the older woman to hire her as a handyman. When three of the strange, idiosyncratic Emerson children return to their childhood home for a visit, they are irresistibly drawn to Elizabeth. With wondrous observations and bittersweet humor, Tyler shows how this unsuspecting young woman becomes the North star that helps a stumbling, dysfunctional family find its footing.

How did we come to this? Everything seemed to be going well, the world's economic growth was the fastest ever in history; everything led us to believe that this was going to continue, all around the world, thanks to abundant savings and outstanding technical progress. Then, without any warning, we found ourselves at the dawn of the most serious global recession for eighty years. On the face of it, nothing seemed to happen between these two events, except that some American families found themselves unable to continue to repay their mortgages. The goal of this book is to explain this mystery as simply as possible,

with a view to solving it, in order to prevent the crisis from deteriorating into a worldwide political catastrophe and to insure that it never happens again.

Dostoevsky

This early work by Earl Derr Biggers was originally published in 1930 and we are now republishing it with a brand new introductory biography. "Charlie Chan Carries On" is the fifth novel in the Charlie Chan

series. Inspector Duff, a Scotland Yard detective and friend of Chan's, first introduced in *Behind That Curtain*, is pursuing a murderer on an around-the-world voyage; so far, there have been murders in London, France, Italy and Japan. While his ship is docked in Honolulu, the detective is shot and wounded by his quarry; though he survives, he is unable to continue with the cruise, and Chan takes his place instead. Earl Derr Biggers was born on 26th August 1884 in Warren, Ohio, USA. Biggers received his further education at Harvard University, where he developed a reputation as a literary rebel, preferring the popular modern authors, such as Rudyard Kipling and Richard Harding Davis to the established figures of classical literature. Following in their footsteps upon graduating, he himself began a career as a popular writer, penning humorous articles and reviews for the *Boston Traveler*. While on holiday in Hawaii, Biggers heard tales of a real-life Chinese detective operating in Honolulu, named Chang Apana. This inspired him to create his most enduring legacy in the character of super-sleuth Charlie Chan. The first Chan story "The House Without a Key" (1925) was published as a serialised story in the *Saturday Evening Post* and then released as a novel in the same year. Biggers went on to write five more Chan novels and all were licensed for movie adaptations by Fox Films. These films were hugely popular with several different actors taking the lead role of Chan. Eventually; over 40 films were produced featuring the character. Biggers only saw the early on-screen successes of Charlie Chan due to his death at the age of only 48 from a heart attack in April 1933.

What do Eastern Europe's booming sex trade, America's subprime mortgage lending scandal, China's fake goods industry, and celebrity philanthropy in Africa have in common? With biopirates trolling the blood industry, fish-farming bandits ravaging the high seas, pornography developing virtually in Second Life, and games like World of Warcraft spawning online sweatshops, how are rogue industries transmuting into global empires? And will the entire system be transformed by the advent of sharia economics? With the precision of an economist and the narrative deftness of a storyteller, syndicated journalist Loretta Napoleoni examines how the world is being reshaped by dark economic forces, creating victims out of millions of ordinary people whose lives have become trapped inside a fantasy world of consumerism. Napoleoni reveals the architecture of our world, and in doing so provides fresh insight into many of the most insoluble problems of our era.

The Vampire Who Loved Me

Following the long-running success he has enjoyed on bestseller lists in Europe, Inspector Salvo Montalbano is now winning over American readers and critics alike as "one of the most engaging protagonists in detective fiction" (USA Today). Now, in *Excursion to Tindari*, Andrea Camilleri's savvy and darkly comic take on Sicilian life leads Montalbano into his most bone-chilling case yet. In two seemingly unrelated

crimes, a young Don Juan is found murdered and an elderly couple is reported missing after an excursion to the ancient site of Tindari. As Montalbano works to solve both cases, he stumbles onto Sicily's ghastly "new age" of brutal and anonymous criminality.

The Animal Gazer

"The Delusions of Certainty is a unique book by an extraordinary author. Siri Hustvedt is a notable novelist, art scholar, and a philosopher of science. In this memorable and immensely enjoyable volume, Hustvedt rises above the exhausted debate over the two cultures, to demonstrate not just the possibility but also the advantages of combining the approaches of the arts, humanities, and sciences to illuminate a key aspect of the human condition: the mind-body problem." —Antonio Damasio, bestselling author of *Descartes' Error* and *Self Comes to Mind*

"Siri Hustvedt proves her membership in the highest rank of neuroscientists and philosophers who probe the nature of thought and the workings of consciousness. A novelist and a student of psychoanalysis and neuroscience, Hustvedt can ask questions others cannot ask about imagination, identity, epistemology, gendered power, and mortality. Her authoritative knowledge and her courage to challenge the status quo guide the reader to fresh epiphanies about what counts as human nature. The work is, in the end, a work of freedom." —Rita Charon, Columbia University

"The Delusions of Certainty is the best book on the mind-body problem I have ever read. Perhaps only a great novelist and essayist can address what

neuroscientists and philosophers fail to question. Siri Hustvedt takes the reader on an inspiring journey into highly relevant and often unanswered questions about what it means to be human.” —Vittorio Gallese, University of Parma Prizewinning novelist, feminist, and scholar Siri Hustvedt turns her brilliant and critical eye toward the metaphysical issues of neuropsychology in this lauded, standalone volume. Originally published in her “canonical” (Publishers Weekly) and “absorbing” (Kirkus Reviews) collection *A Woman Looking at Men Looking at Women*, *The Delusions of Certainty* exposes how the age-old, unresolved mind-body problem has shaped—and often distorted and confused—contemporary thought in neuroscience, psychiatry, genetics, artificial intelligence, and evolutionary psychology.

The Aardvark Who Wasn't Sure

NOW A MAJOR MOTION PICTURE The #1 bestselling author of *Saturday* and *Atonement* brilliantly illuminates the collision of sexual longing, deep-seated fears and romantic fantasy in his unforgettable, emotionally engaging novel. The year is 1962. Florence, the daughter of a successful businessman and an aloof Oxford academic, is a talented violinist. She dreams of a career on the concert stage and of the perfect life she will create with Edward, the earnest young history student she met by chance and who unexpectedly wooed her and won her heart. Edward grew up in the country on the outskirts of Oxford where his father, the headmaster of the local school, struggled to keep the household

together and his mother, brain-damaged from an accident, drifted in a world of her own. Edward's native intelligence, coupled with a longing to experience the excitement and intellectual fervour of the city, had taken him to University College in London. Falling in love with the accomplished, shy and sensitive Florence--and having his affections returned with equal intensity--has utterly changed his life. Their marriage, they believe, will bring them happiness, the confidence and the freedom to fulfill their true destinies. The glowing promise of the future, however, cannot totally mask their worries about the wedding night. Edward, who has had little experience with women, frets about his sexual prowess. Florence's anxieties run deeper: she is overcome by conflicting emotions and a fear of the moment she will surrender herself. From the precise and intimate depiction of two young lovers eager to rise above the hurts and confusion of the past, to the touching story of how their unexpressed misunderstandings and fears shape the rest of their lives, *On Chesil Beach* is an extraordinary novel that brilliantly, movingly shows us how the entire course of a life can be changed--by a gesture not made or a word not spoken.

In a marvellous, thrilling re-creation of the world of *Pride and Prejudice*, P.D. James fuses her lifelong passion for the work of Jane Austen with her own great talent for writing crime fiction. The year is 1803, and Darcy and Elizabeth have been married for six years. There are now two handsome, healthy sons in the Pemberley nursery, Elizabeth's beloved sister Jane and her husband, Bingley, live within seventeen miles, the ordered and secure life of Pemberley seems unassailable, and Elizabeth's happiness in her marriage is complete. But their peace is threatened and old sins and misunderstandings are rekindled on the eve of the annual autumn ball. The Darcys and their guests are preparing to retire for the night when a chaise appears, rocking down the path from Pemberley's wild woodland, and as it pulls up, Lydia Wickham, an uninvited guest, tumbles out, screaming that her husband has been murdered. *Death Comes to Pemberley* is a powerful work of fiction, as rich in its compelling story, in its evocation of place, and its gripping psychological and emotional insight, as the very best of P. D. James. She brings us back masterfully and with delight to much-loved characters, illuminating the happy but threatened marriage of the Darcys with the excitement and suspense of a brilliantly crafted mystery.

To Each His Own

A poignant biographical novel about a WWI-era sculptor: "It's difficult not to love the eccentric, fragile Rembrandt Bugatti and suffer alongside him" (The New York Times Book Review). *The Animal Gazer* is a hypnotic novel inspired by the strange and fascinating life of sculptor Rembrandt Bugatti, brother of the fabled automaker. With World War I closing in and the Belle Époque teetering to a end, Bugatti leaves his native Milan for Paris, where he encounters Rodin and casts his bronzes at the same foundry used by the French master. In Paris and then Antwerp, he obsessively observes and sculpts the baboons, giraffes, and panthers in the municipal zoos, finding empathy with their plight and identifying with their life in captivity. But as the Germans drop bombs over the Belgian city, the zoo authorities are forced to make a heart-wrenching decision about the fate of the caged animals, and Bugatti is stricken with grief from which he'll never recover. Rembrandt Bugatti's work is displayed in major museums around the world, and in this prize-winning novel, "an irresistible, elegantly conceived example of biographical fiction," Edgardo Franzosini recreates the young artist's life with lyricism, passion, and sensitivity (Library Journal). "The Animal Gazer takes you on a glorious journey into the heart of cosmopolitan Paris as you have

never known it before. Through the life of Rembrandt Bugatti, a sculptor with the panache of his name, this lively, fast-paced narrative evokes an exceptional epoch in all its color and eccentric charm.” —Nicholas Fox Weber, author of *Le Corbusier: A Life*
