One in every five Americans lives with at least one disability or disorder, including both the obvious, such as those requiring the use of a wheelchair, and the less evident ones, such as eating disorders or Asperger's syndrome. Those responsible for teaching disabled students and providing services and support for them need ready access to reliable and up-to-date resources. Disabilities and Disorders in Literature for Youth: A Selective Annotated Bibliography for K-12 identifies almost 1,000 resources to help educators, professionals, parents, siblings, guardians, and

students understand the various disabilities and disorders faced by children today. This bibliography consists of four major headings_ Emotional, Learning, Physical, and Multiple Disabilities_ which are further categorized into works of fiction and nonfiction. Annotations provide a complete bibliographical description of the entries, and each entry is identified with the grade levels for which it is best suited and resources are matched with appropriate audiences. Reviews from recognized publications are also included wherever possible. Anyone interested in identifying helpful resources regarding disabilities and disorders will find much of value in this essential tool.

Available online via SciVerse ScienceDirect, or in print for a limited time only, The International Encyclopedia of Housing and Home is the first international reference work for housing scholars and professionals, that uses studies in economics and finance, psychology, social policy, sociology, anthropology, geography, architecture, law, and other disciplines to create an international portrait of housing in all its facets: from meanings of home at the microscale, to impacts on macro-economy. This comprehensive work is edited by distinguished housing expert Susan J. Smith, together with Marja Elsinga, Ong Seow Eng, Lorna Fox O'Mahony and Susan Wachter, and a multi-disciplinary editorial team of 20 world-class scholars in all. Working at the cutting edge of their subject, liaising with an expert editorial advisory board, and engaging with policy-makers and professionals, the editors have worked for almost five years to secure the quality, reach, relevance and coherence of this work. A broad and inclusive table of contents signals (or testifies to) detailed investigation of historical and theoretical material as well as in-depth analysis of current issues. This seven-volume set contains over 500 entries, listed alphabetically, but grouped into seven thematic sections including methods and approaches; economics and finance; environments; home and homelessness; institutions; policy; and welfare and well-being. Housing professionals, both academics and practitioners, will find The International Encyclopedia of Housing and Home useful for teaching, discovery, and research needs. International in scope, engaging with trends in every world region The editorial board and contributors are drawn from a wide constituency, collating expertise from academics, policy makers, professionals and practitioners, and from every key center for housing research Every entry stands alone on its merits and is accessed alphabetically, yet each is fully cross-referenced, and attached to one of seven thematic categories whose 'wholes' far exceed the sum of their parts
