### Quality Education in Ethiopia

This study provides a detailed snapshot of the education sector up to 2001-02, and for some aspects of the sector, up to 2002-03. It takes advantage of administrative data and information from household surveys to document key dimensions of the sector, particularly primary and secondary education, focusing on costs, finance, and service delivery, and their impact on learning achievement, in an effort to discover potentially important areas for further policy development. --foreword.

### Five Year Development Plan, 1957-1961

### Ethiopia in Broader Perspective

This book discusses reforms that should be undertaken in secondary education to support Ethiopia's transition from a low- to middle-income economy. The most critical reform identified is the introduction of a flexible curriculum that serves the needs of all students, including those who may not pursue higher education.

After being immersed in almost three decades of civil conflict, the prevailing peace and political stability in Ethiopia allowed its government to focus on rebuilding its economy. As an integral part of this undertaking, the Federal Democratic Republic of Ethiopia is seeking to overhaul the landscape of human capital development in the country. This report discusses the situation and trends in education, health, nutrition, and population. It also examines the barriers to improvement from the points of view of Ethiopian households and public and private suppliers of services. It also attempts to identify the means by which the government can use public resources more effectively.

This book takes a literature-based approach to how children learn language and how it is taught in today's diverse K-12 classrooms. The material is based on the belief that literature offers the most effective instructional approach for English language learners. The book offers meaningful reading, writing, speaking, and listening activities, as well as new understandings about the forms and functions of written language. This is the first book that offers instructors guidance in expanding the range of materials they use for teaching ESL by going beyond the standard texts to include books of all kinds - children's literature, trade books, magazines, and other media. "Voices from the Classroom: Scenarios from K-12 classrooms with English language learners" are provided throughout the chapters, offering practical stories from teachers' points of view. K-12 Educators with diverse student populations.

Erstmals wird hier die Fülle der englischsprachigen Äthiopienliteratur geordnet dargeboten. In 100 Sections führt der Autor alle für die wissenschaftliche Beschäftigung mit Äthiopien wichtigen Buch- und Zeitschriftenbeiträge zum Beispiel zur "History of Research", "Archaeology", "Religion", aber auch Fragen der "Sociology", "Agriculture", "Zoology" und "Medical Sciences" auf. Wie im Falle der deutschsprachigen Literatur ("Bibliographia Aethiopica: Die äthiopienkundliche Literatur des deutschsprachigen Raumes" = Äthiopistische Forschungen 9 [1982]) berücksichtigt der Autor auch alle ihm zugänglichen Besprechungen, womit bei einer Aufnahme von mehr als 24.000 Titeln eine Art "Bibliographic Encyclopedia" entstanden ist.

### **Bibliographia Aethiopica II**

"This publication describes the usage of languages in the multilingual society of Ethiopia. It is based on empirical studies conducted in nine states of the Federal Democratic Republic of Ethiopia in 1997 and 1998. A research team of German and Ethiopian scholars surveyed about 3,500 high school students from 35 Ethiopian towns regarding their language behaviour. The data on the distribution of mother tongues and second languages are published here for the first time and are representative for a typical Ethiopian town. These data outline the development of multilingualism over three generations (students/parents/grandparents) and elucidate factors which promote the spread of multilingualism. The frame for the representation and explanation of the data is an adapted model of the social network theory."

Understanding Your Refugee and Immigrant Students is an excellent resource for educators who work with refugees and immigrants. This well-researched volume-including interviews with students from the profiled countries-provides a wealth of information about the specific schooling traditions, practices, circumstances, and expectations that follow these individuals to their new homes in North America and influence their learning experience. The author has focused her research on 18 countries that contribute a majority of refugees and immigrants to the United States: Afghanistan, Bosnia-Herzegovina, Croatia, the Dominican Republic, Ecuador, El Salvador, Ethiopia, Guatemala, Honduras, India, Iran, Laos, Liberia, Peru, Somalia, Sudan, and the Ukraine. Each country profile features: statistics about the country, a historical synopsis, an overview of the county's official education policy, cultural perspectives, and a problem-solution section containing classroom strategies. The linguistic systems of the languages featured are also included for teacher reference. Also

included is information about teacher-student relationships, discipline and class management, and appropriate non-verbal communication. This volume provides invaluable insight into refugee and immigrant students' cultural and educational backgrounds and gives instructors the tools to translate this information into effective classroom strategies.

Peterson's Private Secondary Schools is everything parents need to find the right private secondary school for their child. This valuable resource allows students and parents to compare and select from more than 1,500 schools in the U.S. and Canada, and around the world. Schools featured include independent day schools, special needs schools, and boarding schools (including junior boarding schools for middle-school students). Helpful information listed for each of these schools include: school's area of specialization, setting, affiliation, accreditation, tuition, financial aid, student body, faculty, academic programs, social life, admission information, contacts, and more. Also includes helpful articles on the merits of private education, planning a successful school search, searching for private schools online, finding the perfect match, paying for a private education, tips for taking the necessary standardized tests, semester programs and understanding the private schools' admission application form and process.

The main focus of the study is the deepening crisis of the Ethiopian education system. This study reconstructs the growth of the crisis of the sector during the last four decades. It then discusses the implications of the crisis in terms of communication breakdown; absence of analytical capacity at system level; the fragmentation of society; loss of political legitimacy and perpetuation of authoritarian power. Although the education sector has greatly expanded its impact on poverty alleviation has so far been insignificant. The poverty landscape has changed to the worse during the last fifty years. This is largely due to the fact that the Ethiopian education system is based on false premises. At the center of the crisis is the use of English as medium of instruction. The proficiency in English is so low that its continued use as a medium of instruction can only lead to the collapse of the education system. The study argues that it is only through language (readily understood and practiced) that collective life and the world can be interpreted in an integrated manner. The replacement of English by Ethiopian languages all the way from the primary to tertiary levels is one of the factors that could strengthen the survival potential of the Ethiopian political community. The study is relevant for policy makers and students of development

studies on the role of education in social change in Africa south of the Sahara.
