Extreme Contracts

Book Review Digest

Current challenges to the legitimacy of expert knowledge has caused professional control over knowledge, autonomy at work, orientation toward public service, and social status to have declined. In this collection, scholars examine the nature of these changes and how they have altered the experience of professional workers.

Engineering Record, Building Record and Sanitary Engineer

In his recent work, Guy Standing has identified a new class which has emerged from neo-liberal restructuring with, he argues, the revolutionary potential to change the world: the precariat. This, according to Standing, is 'a class-in-the-making, internally divided into angry and bitter factions' consisting of 'a multitude of insecure people, living bits-and-pieces lives, in and out of short-term jobs, without a narrative of occupational development, including millions of frustrated educated youth, millions of women abused in oppressive labour, growing numbers of criminalised tagged for life, millions being categorised as "disabled" and migrants in their hundreds of millions around the world. They are denizens; they have a more

restricted range of social, cultural, political and economic rights than citizens around them'. This present book explores the nature, shape and context of precariat, evaluating the internal consistency and applications of the concept. Demonstrating the sheer breadth and depth of application, the chapters cover a wide-range of topics, from the relationships between precariat and authoritarianism, multitude (another concept to achieve popular consciousness), and place as well as the nature of precarious identities and subjectivities among those working in immaterial labour. The book concludes with a reply by Standing to reviews of Precariat. This book was published as a special issue of Global Discourse.

I contratti sono una rogna nella vita di architetti, programmatori, designer, copywriter, grafici, fotografi e di tutti i "knowledge worker". Ma non deve essere per forza così. ExtremeContracts è un approccio pragmatico e rigoroso per cambiare le negoziazioni e i contratti nel knowledge work. Che lavoriate da soli, in un piccolo team di professionisti o in una grande organizzazione, in queste pagine troverete molte idee per provocare, ispirare e incoraggiare voi stessi e le persone

con cui collaborate a migliorare sostanzialmente la negoziazione con clienti e fornitori di accordi davvero adatti al vostro lavoro. Scoprirete gli otto principi grazie ai quali potrete - Evitare di trovarvi intrappolati in lavori indesiderabili o in dannose escalation al rialzo- Lavorare sui contratti come parte integrante del vostro processo operativo- Evitare negoziazioni prettamente basate sulla contrapposizione posizionale- Individuare accordi compatibili con il pensiero lean- Argomentare i difetti tipici dei contratti tradizionali- Decidere se negoziare del tutto o lasciar stare, passando all'opportunità successive sfruttando in pratica concetti sofisticati come antifragilità, lean thinking, agile management e teoria dei vincoli. Tutti i knowledge worker possono migliorare il proprio approccio ai contratti. Tutti possono iniziare oggi e arrivare ad accordi di qualità inimmaginabile allo stato attuale. Extreme Contracts offre idee per sostenere questo cambiamento nei prossimi anni.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.
