Father of the Blues

NATIONAL BESTSELLER A charmingly relatable and wise memoir-in-essays by acclaimed writer and bookseller Mary Laura Philpott, "the modern day reincarnation of...Nora Ephron, Erma Bombeck, Jean Kerr, and Laurie Colwin—all rolled into one" (*The Washington Post*), about what happened after she checked off all the boxes on a successful life's to-do list and realized she might need to reinvent the list—and herself. Mary Laura Philpott thought she'd cracked the code: Always be right, and you'll always be happy. But once she'd completed her life's to-do list (job, spouse, house, babies—check!), she found that instead of feeling content and successful, she felt anxious. Lost. Stuck in a daily grind of overflowing calendars, grueling small talk, and sprawling traffic. She'd done everything "right" but still felt all wrong. What's the worse failure, she wondered: smiling and staying

the course, or blowing it all up and running away? And are those the only options? Taking on the conflicting pressures of modern adulthood, Philpott provides a “frank and funny look at what happens when, in the midst of a tidy life, there occur impossible-to-ignore tugs toward creativity, meaning, and the possibility of something more” (Southern Living). She offers up her own stories to show that identity crises don’t happen just once or only at midlife and reassures us that small, recurring personal re-inventions are both normal and necessary. Most of all, in this “warm embrace of a life lived imperfectly” (Esquire), Philpott shows that when you stop feeling satisfied with your life, you don’t have to burn it all down. You can call upon your many selves to figure out who you are, who you’re not, and where you belong. Who among us isn’t trying to do that? “Be forewarned that you’ll laugh out loud and cry, probably in the same essay. Philpott has a wonderful way of finding humor, even in darker moments. This is a book you’ll want to buy for yourself and every other woman you know” (Real Simple).

Tennesseans may be stirred by the sight of their state flag or the strains of "The Tennessee Waltz, " but there are many other symbols associated with the Volunteer State: animals, plants, and even rocks. This new edition of Rob Simbeck's popular book describes thirty-one emblems of Tennessee's heritage and explains how they came to be recognized as official state symbols. Simbeck has compiled a treasury of facts and anecdotes about Tennessee's symbols that will surprise even those who have lived their entire lives in the state. Here is the story

behind the construction of the state capitol; an account of the "war of the iris and passionflower" as they vied for official recognition; and a fascinating look at the most fragile state symbol, the freshwater pearl, the product of the state's mussels, many of which are endangered. Also included are the lyrics to Tennessee's seven state songs, from "Rocky Top" to "Pride of Tennessee." New entries in this edition include the state reptile (eastern box turtle), state amphibian (Tennessee cave salamander), and the state tartan, which celebrates the Scottish origins of Tennessee's early settlers -- plus the state's official festival, the Smithville Fiddlers' Jamboree and Crafts Festival. From the mockingbird to the zebra swallowtail butterfly, these symbols are a celebration of what it means to be a Tennessean. Simbeck's stories will delight readers of all ages and give them a new appreciation for their state's rich heritage.

Lost Waltz - A Story of Exile

When Sarah Channing's fiancé hardens his heart toward a needy child named Mairi, the New York Socialite puts her wedding on hold to locate the child's only relatives, hidden deep in the Appalachians. Arriving at Sawback Mountain, Sarah meets Wyn, Mairi's handsome older cousin, and finds herself wishing for something she doesn't have: a glimmer of beauty. Wyn had his fill of beautiful city-bred women during his time in Washington, DC, as a senator's aide. Yet he's impressed by Sarah, working hard to gain the love and respect of the mountain folks. But Sarah is making mistake after mistake as she tries to use her money and influence to improve the lives of the children. Perhaps the proud mountain folk are right: a cultured socialite, even one without beauty, has no place on their mountain or in the heart of a mountain man who's vowed to never again leave the life he loves. The American Legion

“A hot-rod joy ride through mid-20th-century American history” (The New York Times Book Review), this one-of-a-kind narrative masterfully recreates the rivalry between the two men who innovated the electric guitar’s amplified sound—Leo Fender and Les Paul—and their intense competition to convince rock stars like the Beatles, Jimi Hendrix, and Eric Clapton to play the instruments they built. In the years after World War II, music was evolving from big-band jazz into rock ‘n’ roll—and these louder styles demanded revolutionary instruments. When Leo Fender’s tiny firm marketed the first solid-body electric guitar, the Esquire, musicians immediately saw its appeal. Not to be out-manuevered, Gibson, the largest guitar manufacturer, raced to build a competitive product. The company designed an “axe” that would make Fender’s Esquire look cheap and convinced Les Paul—whose endorsement Leo Fender had sought—to put his name on it. Thus was born the guitar world’s most heated rivalry: Gibson versus Fender, Les versus Leo. While Fender was a quiet, half-blind, self-taught radio repairman, Paul was a brilliant but headstrong pop star and guitarist who spent years toying with new musical technologies. Their contest turned into an arms race as the most inventive musicians of the 1950s and 1960s—including bluesman Muddy Waters, rocker Buddy Holly, the Beatles, Bob Dylan, and Eric Clapton—adopted one maker’s guitar or another. By 1969 it was clear that these new electric instruments had launched music into a radical new age, empowering artists with a vibrancy and volume never before attainable. In “an excellent dual portrait” (The Wall Street Journal), Ian S. Port tells the full story in *The Birth of Loud*, offering “spot-on human characterizations, and erotic paeans to the bodies of guitars” (The Atlantic). “The story of these instruments is the story of America in the postwar era: loud, cocky, brash, aggressively new” (The Washington Post).

Longlisted for the Women's Prize for Fiction When Marilyn Connolly and David Sorenson fall in love in the 1970s, they are blithely ignorant of all that awaits them. By 2016, their four radically different daughters are in a state of unrest. Wendy, widowed young, soothes herself with booze and younger men; Violet, a litigator turned stay-at-home-mom, battles anxiety and self-doubt; Liza, a neurotic and newly tenured professor, finds herself pregnant with a baby she's not sure she wants by a man she's not sure she loves; and Grace, the dawdling youngest daughter, begins living a lie that no one in her family even suspects. With the arrival of Jonah Bendt--a child placed for adoption by one of the daughters fifteen years before--the Sorensens will be forced to reckon with the rich and varied tapestry of their past: years marred by adolescent angst, infidelity, and resentment, but also the transcendent moments of joy that make everything else worthwhile.

The Perfect Waltz

Which force was more likely to have penetrated your essence and shaped your destiny if you were born in February of 1964: the orbital shufflings of Mars and Jupiter, or the explosive rise of the stars called the Beatles? By linking your personality and potential to the star who ruled the pop universe at the moment of your birth, Popstrology offers an entirely new approach to illuminating your spirit and your soul. Could the roots of your chronic restlessness lie in the fact that you are a Commodore born in the Year of Debby Boone? Could your crippling sexual inhibition result from being a Pat Boone born in the Year of Elvis Presley? Yes, they could. Could Britney Spears have been born under the influence of anything other than Olivia Newton-John's "Physical"? No, she couldn't. Fresh, funny and remarkably persuasive, this groundbreaking book reveals the powers hidden in a galaxy of stars we all can name, and in so doing gives us the right sign for modern times. In the new novel in the iconic Max Liebermann mystery series, master storyteller Frank Tallis delivers his latest suspenseful and spellbinding tale set in the smoky atmospheric world of fin de siecle Vienna. Vienna, 1904. The body of a man—still sitting in a chair—is discovered in an abandoned piano factory on the outskirts of the city. He has been shot dead but his face has been horribly disfigured with acid, making identification impossible. In front of the body are three chairs positioned conspicuously in a straight line. Who were the former occupants? Had they sat in judgement and pronounced a sentence of death? Detective Inspector Oskar Rheinhardt calls on his good friend Doctor Max Liebermann—psychiatrist and disciple of Sigmund Freud—to assist in an investigation that draws them both into the shadowy and sexually unconventional world of fringe political activism. It is a world populated by Bohemians, Utopian idealists, and anarchists, many of whom endorse acts of terror to achieve their revolutionary aims. When bomb-making equipment is found in a suburban basement, the sinister Imperial intelligence bureau (who have been secretly monitoring Rheinhardt's investigation) make themselves known. A legendary anarchist known only by his code name—Mephistopheles—is abroad in Vienna. An appalling act of terror has been planned and time is running out. Rheinhardt must hope that Liebermann, with his profound knowledge of psychology and science, will be able to prevent the coming catastrophe. The latest novel in the iconic Max Liebermann mystery series,
