Throughout the times of the land we call Round Top, one thought has constantly prevailed. This is a land of opportunity. The land was formed over the centuries into flat land and hills by rivers beyond and by creeks and springs, while waiting for animals and mankind to arrive. This land is located in the northeastern margin of today's Fayette County, and lies on a high hill that looks down toward the south into the bottom lands of a crossing. The struggle on this small piece of land began with the movement of animals that needed a convenient place for water that was crossable during the seasons. This perfect crossing flows through the south eastern side of the present town of Round Top located between two high hills. This crossing was the home of native American Indians, American settlers and German immigrants.

Lies My Teacher Told Me

Originally published in 1972, this book is a systematic analysis of the objectives and methods of history teaching. The book considers the criticisms of the 1960s and 70s of history as a subject and the pressures for its replacement in the school curriculum. It examines the complex psychological background of learning history and suggests that historical understanding makes an important contribution to cognitive growth. It also stresses the important part played by historical material in the emotional and imaginative life of the child. Concluding with a discussion of practical classroom methods, the author proposes objectives and characteristic concepts of the subject which may be embodied in all levels of teaching.

Instructional Design for Teachers

School Education

How do schools protect young people and call on the youngest citizens to respond to violent conflict and division operating outside, and sometimes within, school walls? What kinds of curricular representations of conflict contribute to the construction of national identity, and what kinds of encounters challenge presumed boundaries between us and them? Through contemporary and historical case studies—drawn from Cambodia, Egypt, Northern Ireland, Peru, and Rwanda, among others—this collection explores how societies experiencing armed conflict and its aftermath imagine education as a space for forging

collective identity, peace and stability, and national citizenship. In some contexts, the erasure of conflict and the homogenization of difference are central to shaping national identities and attitudes. In other cases, collective memory of conflict functions as a central organizing frame through which citizenship and national identity are (re)constructed, with embedded messages about who belongs and how social belonging is achieved. The essays in this volume illuminate varied and complex inter-relationships between education, conflict, and national identity, while accounting for ways in which policymakers, teachers, youth, and community members replicate, resist, and transform conflict through everyday interactions in educational spaces.

Instructional Design for Teachers, Second Edition focuses on the instructional design (ID) process specifically for K-12 teachers. This second edition includes new material on design in gaming, cybercharters, online classrooms, and flipped classrooms, as well as special considerations for the Common Core. Each chapter contains framing questions, common errors, easy-to-use rules of thumb, clearly stated outcomes, and examples showing ID in action. The basic model and its

application within constructivism and user-design will help teachers adapt from a behavioral approach to a more open, student-centered design approach. Combining basics with strategies to implement this model in the most advanced instructional approaches, this book empowers teachers and learners to use good instructional design with the most recent research-based approaches to learning. Instructional Design for Teachers shows how ID principles can impact instructional moments in positive and practical ways. The book can be used for basic ID courses and introductory curriculum courses, and is accessible to in-service as well as pre-service teachers.
