The companion book to the groundbreaking PBS and BBC documentary series celebrating the pioneers and artists of American roots music—blues, gospel, folk, Cajun, Appalachian, Hawaiian, Native American—without which there would be no jazz, rock, country R&B, or hip hop today. Jack White, T. Bone Burnett, and Robert Redford have teamed up to executive produce American Epic, a historical music project exploring the pivotal recording journeys of the early twentieth century, which for the first time captured the breadth of American music and made it available to the world. It was, in a very real way, the first time America truly heard herself. In the 1920s and 1930s, as radio took over the pop music business, record companies were forced to leave their studios in major cities in search of new styles and markets. Ranging the mountains, prairies, rural villages, and urban ghettos of America, they discovered a wealth of unexpected talent—farmers, laborers, and ethnic minorities playing styles that blended the intertwining strands of Europe, Africa, Asia, and the Americas. These recordings form the bedrock for modern music as we know it, but during the Depression many record

companies went out of business and more than ninety percent of the fragile 78 rpm discs were destroyed. Fortunately, thanks to the continuing efforts of cultural detectives and record devotees, the stories of America's earliest musicians can finally be told. Bernard MacMahon and Allison McGourty, who directed and produced the documentary with American musician Duke Erikson, spent years traveling around the US in search of recollections of those musical pioneers. Their fascinating account, written with the assistance of prize-winning author Elijah Wald, continues the journey of the series and features additional stories, never-before-seen photographs, and unearthed artwork. It also contains contributions from many of the musicians who participated including Taj Mahal, Nas, Willie Nelson, and Steve Martin, plus a behind-the-scenes look at the incredible journey across America. American Epic is an extraordinary testament to our country's musical roots, the transformation of our culture, and the artists who gave us modern popular music.

Turn your home into a Montessori home—and become a more mindful, attentive, and easygoing parent. It's time to change the way we see toddlers. Using the principles developed by the educator Dr. Maria

Montessori, Simone Davies shows how to turn life with a “terrible two” into a mutually rich and rewarding time of curiosity, learning, respect, and discovery. With hundreds of practical ideas for every aspect of living with a toddler, here are five principles for feeding your child’s natural curiosity, from “Trust in the child” to “Fostering a sense of wonder.” Step-by-step ways to cultivate daily routines with ease, like brushing teeth, toilet-training, dealing with siblings, losing the pacifier. Plus learn how to: Stay composed when your toddler is not and set limits with love and respect—without resorting to bribes or punishment Set up your home and get rid of the chaos Create Montessori activities that are just right for your one-to-three-year-old Raise an inquisitive learner who loves exploring the world around them See the world through your toddler’s eyes and be surprised and delighted by their perspective Be your child’s guide—and truly celebrate every stage
