## Empirical Capital Structure

Instead of building new hospitals that import old systems and problems, the time has come to reexamine many of our ideas about what a hospital should be. Can a building foster continuous improvement? How can we design it to be flexible and useful well into the future? How can we do more with less? Winner of a 2013 Shingo Prize for Operational Excell

## Mother of Invention

Error Reduction in Health Care Completely revised and updated, this second edition of Error Reduction in Health Care offers a step-by-step guide for implementing the recommendations of the Institute of Medicine to reduce the frequency of errors in health care services and to mitigate the impact of errors when they do occur. With contributions from noted leaders in health safety, Error Reduction in Health Care provides information on analyzing accidents and shows how systematic methods can be used to understand hazards before accidents occur. In the chapters, authors explore how to prioritize risks to accurately focus efforts in a systems redesign, including performance measures and human factors. This expanded edition covers contemporary material on innovative patient safety topics such as applying Lean principles to reduce mistakes, opportunity analysis, deductive adverse event investigation, improving safety through collaboration with patients and families, using technology for patient safety improvements, medication safety, and high reliability organizations. The Editor

## **Walking to New Orleans**

This book describes advances in medical care, inflation in its costs, and the often antagonistic roles of the government and the private sector in providing health care services. A case is made for more individual responsibility for health together with more government regulations of those directly and indirectly affecting health and treatments, including not just the drug industry but health care providers, as well as food, automobile, and other industries that have been more concerned about profits than the safety and health of the public. The author joins with those who consider health care to be a national priority and recommend a government-run universal health system paid for by taxes. Such health care systems exist in other developed countries less wealthy than the United States and they often have resulted in better health and higher longevities for their citizens.

## **International Directory of Business Biographies**

Strategic Choices presents the results of a comprehensive three-year study of eight leading hospital systems (comprising over 500 hospitals) to reveal how they have adapted to significant changes in the health care industry. Using numerous case studies, interviews, and examples, the authors examine which strategies for adaptation were chosen, what worked, what did not, and why. Winner of the Academy of Management's George R. Terry Book of the Year Award for outstanding contribution to advancing management knowledge. "Points to the crucial factors in implementing complex health services which may make the difference between success and failure in the 1990s".--Healthcare Forum Journal.

## **Columbia/HCA**

After your casebook, Casenote Legal Briefs will be your most important reference source for the entire semester. It is the most popular legal briefs series available, with over 140 titles, and is relied on by thousands of students for its expert case summaries, comprehensive analysis of concurrences and dissents, as well as of the majority opinion in the briefs. Casenote Legal Briefs Features: Keyed to specific casebooks by title/author Most current briefs available Redesigned for greater student accessibility Sample brief with element descriptions called out Redesigned chapter opener provides rule of law and page number for each brief Quick Course Outline chart included with major titles Revised glossary in dictionary format

## **The Business Book on 5 Top Hospital Corporations**

Covering the entire world of business from heavy industry to the financial houses of Wall Street, this book shines a spotlight on 100 of the most infamous cases of misconduct and malfeasance in corporate history. • Presents cogent and accessible explanations of some of the most important cases involving corporate misconduct of this century in a manner suitable for both general readers and specialists • Supplies information about the financial penalty involved, legal issues, public policy implications, and human stories of the individuals involved for each case • Includes a bibliography for further research, an appendix of the corporations involved, and sidebars containing additional information such as clarifying details

and connections to related topics and relevant websites

### **The New Health Care for Profit**

This text relates the story of corporate for-profit healthcare scheme, Columbia/HCA. It examines how this type of healthcare management is impacting on late-1990s healthcare in the USA and the influence Wall Street has had on investor-owner hospitals.

### **Who Owns Whom**

### **Look at More**

With more than 500 entries (including up-to-date information on such high profile cases as Martha Stewart and Enron), the Encyclopedia of White-Collar & Corporate Crime gathers history, definitions, examples, investigation, prosecution, assessments, challenges, and projections into one definitive reference work on the topic. This two-volume encyclopedia incorporates information about a variety of white-collar crimes, and provides examples of persons, statutes, companies, and convictions. Each entry offers a thorough and thoughtful summary of the topic. Rather than a simple definition, users are given a satisfying and sophisticated synopsis with references for further study.

### **Directory of Leading Private Companies**

Includes the college's Hospital standardization report.

### **Hospital Corporation of America V. Federal Trade Commission**

This comprehensive book gives you quick access to everything you need to know about Columbia/HCA Healthcare Corporation; Tenet Healthcare Corporation; Vencor, Inc.; HealthSouth Corporation; and Magellan Health Services. You'll find a wealth of information on these industry giants, from growth profiles, acquisition history, company statistics, and strategic alliances and joint ventures to financial data, stock information, quality initiatives, and more.

### **The Legend of HCA**

A directory of foreign direct investments by U.S. and Canadian corporations and direct investments in the U.S. and Canada by foreign companies; and of domestic subsidiaries and associates of Canadian companies.

### **Macmillan Directory of Leading Private Companies**

Underlying America's robust private health care industry is an indispensable partner that has guided and supported it for over half a century: the government. This book demonstrates how government initiatives created American health care as we know it today and places the Obama plan in its true historical and political

context.

## **Managed Care**

Former Senate Majority Leader Bill Frist shares his unique experience as a heart transplant surgeon and U.S. senator inspiring people to make a difference wherever they are and whatever position they are in by helping others, risking failure, challenging the status quo, and above all, having a heart to serve. One of the brightest and most forward-thinking senators, Frist tackles controversial issues to offer feasible solutions. His simple philosophy for peace, for example, is service. "People don't usually go to war against someone who helped save their children," Frist writes. "While the world often sees America's tougher side when people see America's more compassionate, humanitarian side, the barriers come down, and peace becomes a viable possibility." With heartfelt love for family and country, warmhearted humor, and a doctor's comforting tones, Frist writes openly about the values and experiences that shaped his life, and challenges and inspires everyone to find a place where they, too, can make a difference.

## **Error Reduction in Health Care**

The American dream champions individualism. But at what price? In this [book, the author] chronicles the latest incidents of "wilding"--Extreme acts of self-interested violence and greed - that seem to signal an eroding of the moral landscape of American society. [The author] argues that ever-increasing individualism breeds an antisocial mentality with dangerous economic and social consequences - yet he offers a communitarian alternative that is as inspiring as it is instructive. Recent wilding events, such as the social aftermath of Hurricane Katrina, the war in Iraq, and recent government scandals, are highlighted in [this book].-Back cover.

## **The Wilding of America**

This volume is part of a four-volume set (the others profile American emerging companies, American private companies, and global companies); and it contains information on 750 American businesses chosen mainly for their size, influence, growth, visibility, and breadth of coverage. Each entry contains two narratives--an overview of the company, its s

## **International Directory of Company Histories**

The Legend of HCA chronicles the exciting sometime turbulent story of one of America's most influential corporations. HCA's founding in 1968 started a revolution in the healthcare industry, not only in Nashville, where the company began, but across the entire country. HCA was one of the first investor-owned hospital companies in the nation. As such, the company pioneered an entirely new way of running hospitals. Over the years, HCA has been a leader in balancing and improving the nation's healthcare system. Today it is one of the most well-respected companies in the nation and arguably stands head and shoulders above other investor-owned hospital companies when it come to policies, ethics, and quality healthcare.

## **Casenote Legal Briefs**

Praise for Look At More "Andy Stefanovich is a masterful storyteller and a true 'curator of inspiration.' Look At More gives you a dose of Andy's adrenaline and creative can-do spirit, and it provides you with a powerful how-to guide for inspiring workplace innovation that lasts."—Beth Comstock, chief marketing officer, GE "Andy Stefanovich has always exhorted his clients to 'look at more stuff, think about it harder.' With this inspired and inspiring book, he shares dozens upon dozens of ways to put that principle to work. Look At More offers a way to real business transformation." —Daniel H. Pink, author, *A Whole New Mind and Drive* "Andy offers the reader a unique insight into what it really takes to create innovation within the structure of a corporate environment today. Andy doesn't think outside the box. He blows it up and starts again, helping large corporations think and behave like start-ups." —Duncan Wardle, vice president, Creative Inc., Disney Company "Andy Stefanovich delivers a host of innovative approaches to transform you and your business. The addictive narrative, while informative and actionable, is as creative as he wants us all to be."—Ivy Ross, executive vice president, marketing, Gap Brand at Gap Inc. "Look At More gives business leaders a practical and comprehensive framework to build, maintain, and most importantly inspire innovation not only at work but in all parts of life."—Stew Friedman, Wharton professor and author, *Total Leadership*

## **1999 Directory of Corporate Affiliations**

Annotation This multi-volume series provides detailed histories of more than 7,000 of the most influential companies worldwide.

## **National Directory of Corporate Giving**

Covering New York, American & regional stock exchanges & international companies.

## **A Heart to Serve**

## **Encyclopedia of White-Collar & Corporate Crime**

This fifth edition of *Where Medicine Fails*, like previous editions, argues for a broader definition of society's responsibilities to the ill than is commonly perceived to be the case. The authors examine the moral and economic implications of medical technology, especially in regard to fetal tissue transplant, cancer survival, childbirth, and dying, and provide a thoughtful assessment of the issues and challenges facing American hospitals. Seventeen chapters are new to this edition. The aim of this volume is to encourage serious examination of the current structure of health services and of the complicated facets of health care reform.

### **Money and Health: A Study of American Social Values**

#### **Leave No One Behind**

One of the few inspirational stories that came out of Hurricane Katrina was the rescue of Tulane University Hospital and Clinic. During the days immediately following the New Orleans flood, Nashville-based hospital company HCA masterminded and financed the rescue of every Tulane patient, staffer and family member a total of 1,200 people in all. This is the inside story of how the company did it; what the administration knew and didn't know; how doctors and nurses cared for patients under difficult conditions; how dozens of helicopters executed the rescue safely. This book also tells the story of how Tulane's staff and administration helped rescue around 50 patients from other New Orleans hospitals, in spite of having almost no communication with those hospitals along the way.

#### **Where Medicine Fails**

*Empirical Capital Structure* reviews the empirical capital structure literature from both the cross-sectional determinants of capital structure as well as time-series changes.

#### **The Physician as Manager**

This collection provides the health care manager with the latest and best thinking about the dynamic field of managed care. Here are expert advice and insightful perspectives on strategies and structures for managed care, the roles of hospitals and physicians, and management issues. Indispensable for providers, insurers, buyers, and anyone seeking the techniques, methods, linkages, and alliances needed to make managed care succeed.

#### **Five Days at Memorial**

#### **For-Profit Enterprise in Health Care**

#### **Directory of Privately Owned: Community Hospitals, Hospital Management Companies & Health-systems, Residential**

Examines the career paths, business achievements, leadership styles, business strategies and industry impact of Fortune 500 and Global 500 corporate leaders, as well as entrepreneurs and other notable businesspeople through in-depth biographical narratives. For business and trade audiences.

## **Moody's Bond Survey**

## **Moody's Industrial Manual**

Contains the full texts of all Tax Court decisions entered from Oct. 24, 1942 to date, with case table and topical index.

## **Strategic Choices for America's Hospitals**

An introduction to the new health care for profit. Legal differences between investor-owned and nonprofit health care institutions. Wall Street and the for-profit hospital management companies. When investor-owned corporations buy hospitals: some issues and concerns. Physician involvement in hospital decision making. Economic incentives and clinical decisions. Ethical dilemmas of for-profit enterprise in health care. Secondary income from recommended treatment: should fiduciary principles constrain physician behavior?

## **SEC Docket**

Pulitzer Prize winner Sheri Fink's landmark investigation of patient deaths at a New Orleans hospital ravaged by Hurricane Katrina – and her suspenseful portrayal of the quest for truth and justice. In the tradition of the best investigative journalism, physician and reporter Sheri Fink reconstructs 5 days at Memorial Medical Center and draws the reader into the lives of those who struggled mightily to survive and maintain life amid chaos. After Katrina struck and the floodwaters rose, the power failed, and the heat climbed, exhausted caregivers chose to designate certain patients last for rescue. Months later, several of those caregivers faced criminal allegations that they deliberately injected numerous patients with drugs to hasten their deaths. Five Days at Memorial, the culmination of six years of reporting, unspools the mystery of what happened in those days, bringing the reader into a hospital fighting for its life and into a conversation about the most terrifying form of health care rationing. In a voice at once involving and fair, masterful and intimate, Fink exposes the hidden dilemmas of end-of-life care and reveals just how ill-prepared we are for the impact of large-scale disasters—and how we can do better. A remarkable book, engrossing from start to finish, Five Days at Memorial radically transforms your understanding of human nature in crisis. One of The New York Times' Best Ten Books of the Year

## **Directory of Investor-owned, Community Hospitals, Hospital Management Companies & Health Systems, Residential Treatment Facilities & Centers, Key Management Personnel**

Two and a half years after the devastation of Hurricanes Katrina and Rita, New Orleans and south Louisiana continue to struggle in an unsettled gumbo of environmental, social, and rebuilding chaos. Citizens await the fruition of four successive recovery and reconstruction planning processes and the realization of essential infrastructure repairs. Repopulation in Orleans Parish has slowed considerably; the parish remains at best two-thirds of its former size; thousands of former residents who wish to return face barriers of many kinds. Heroic efforts at rebuilding have occurred through the efforts of individual neighborhood associations and voluntary associations who have attempted to address serious losses in affordable housing and health care services. Walking to New Orleans traces how a dominant but paradoxical model of the relation between the human and natural worlds in Western culture has informed many environmental and engineering dilemmas and has contributed to the history of social inequities and injustice that anteceded the disasters of the hurricanes and subsequent flooding. It proposes a model for collaborative recovery that links principles of ethics and engineering, in which citizens become active, ongoing participants in the process of the reconstruction and redesign of their unique locus of habitation. Equally important, it gives voice to the citizens and associations who are desperately working to rebuild their homes and lives both in urban New Orleans and in the villages of coastal Louisiana.

### **Opera America Newsline**

medical-legal affairs, automated systems, and THE PHYSICIAN AS MANAGER OFFERS public relations. PHYSICIANS AND OTHER HEALTH PROFESSIONALS A PRACTICAL GUIDE In the past, physicians relied on their clinical competence and professional reputation to build and maintain their practices. Although these attributes are still necessary, other issues such as accessibility, quality assurance, cost containment, and health maintenance are growing in importance. Although many traditional medical practitioners in medicine resist the pressure to become managers and their applications to medical practice and the health care field. As health professionals now have the opportunity to design health maintenance organizations, an innovative health care system. Industry and government agencies, and industry become major influences on the delivery and financing of health care, the once exclusive doctor-patient relationship is being modified by contractual arrangements with third-party payers. Physicians to expand their professional competency to no longer be the sole authority in their field.

### **Tax Court Memorandum Decisions**

"[This book is] the most authoritative assessment of the advantages and disadvantages of recent trends toward the commercialization of health care," says Robert Pear of The New York Times. This major study by the Institute of Medicine

examines virtually all aspects of for-profit health care in the United States, including the quality and availability of health care, the cost of medical care, access to financial capital, implications for education and research, and the fiduciary role of the physician. In addition to the report, the book contains 15 papers by experts in the field of for-profit health care covering a broad range of topics--from trends in the growth of major investor-owned hospital companies to the ethical issues in for-profit health care. "The report makes a lasting contribution to the health policy literature."--Journal of Health Politics, Policy and Law.
