How to Quit Smoking

Most smoking cessation methods emphasise how difficult it is to stop, list the awful withdrawal symptoms you are likely to suffer and warn you of the risks of cancer and heart disease. In contrast, based on a doctor's actual experience of successfully treating hundreds of smokers, this book shows it's easy to stop if you know how. You will find out why you really smoke, and once you understood that, you won't want to do it any more. It's explained why nicotine products or drugs should not be used, there are no horrible pictures and will-power is not required.

I'M TOO STRESSED TO STOP. I'LL GAIN WEIGHT IF I QUIT. I'VE TRIED AND FAILED TOO MANY TIMES TO COUNT. Why are you still smoking, even though you want to quit? Based on twenty years of research and hands-on work with countless smokers in his clinics at Columbia University and New York Presbyterian Hospital, Dr. Daniel F. Seidman understands that people smoke -- and quit -- for different reasons and what works for one smoker might not work for another. • Are you a Situational Smoker? Monitoring your reactions in different situations is a step toward permanently losing interest in cigarettes. • Are you a Worried-about-Weight Smoker? Properly using treatments like Nicotine Replacement Therapy (NRT) can help you quit and get healthy in all aspects of your life. • Are you an Emotion-Triggered Smoker? Scheduling your smoking breaks and sticking to a rigid "smoking schedule" helps break the link between stressful situations and craving cigarettes. In a comprehensive, 30-day program, Dr. Seidman explains how to retrain your brain, take advantage of all the tools at your disposal, and end the month smoke-free and feeling stronger than ever!

Long hailed as a seminal work of modernism in the tradition of Joyce and Kafka, and now available in a supple new English translation, Italo Svevo's charming and splendidly idiosyncratic novel conducts readers deep into one hilariously hyperactive and endlessly self-deluding mind. The mind in question belongs to Zeno Cosini, a neurotic Italian businessman who is writing his confessions at the

behest of his psychiatrist. Here are Zeno's interminable attempts to quit smoking, his courtship of the beautiful yet unresponsive Ada, his unexpected—and unexpectedly happy—marriage to Ada's homely sister Augusta, and his affair with a shrill-voiced aspiring singer. Relating these misadventures with wry wit and a perspicacity at once unblinking and compassionate, Zeno's Conscience is a miracle of psychological realism.

By turns philosophical and darkly comic, an ex-smoker's meditation on the nature and consequences of his nearly lifelong addiction. Written with the passion of an obsessive, Nicotine addresses a lifelong addiction, from the thrill of the first drag to the perennial last last cigarette. Reflecting on his experiences as a smoker from a young age, Gregor Hens investigates the irreversible effects of nicotine on thought and patterns of behavior. He extends the conversation with other smokers to meditations on Mark Twain and Italo Svevo, the nature of habit, and the validity of hypnosis. With comic insight and meticulous precision, Hens deconstructs every facet of dependency, offering a brilliant analysis of the psychopathology of addiction. This is a book about the physical, emotional, and psychological power of nicotine as not only an addictive drug, but also a gateway to memory, a long trail of streetlights in the rearview mirror of a smoker's life. Cigarettes are sometimes a solace, sometimes a weakness, but always a witness and companion. This is a meditation, an ode, and a eulogy, one that will be passed hand-to-hand between close friends.
