Commercial Law is the only book available that combines the theory and practice of Islamic commercial law in an English-language text. From the experts at the International Islamic University Malaysia, the book examines the source materials in the Qur'an and Hadith, and highlights the views and positions of leading schools of Islamic law, without burying the reader in juristic minutia. It combines theory with practice to address the needs of students while providing a pragmatic treatment of Islamic contracts. It provides diagrams for individual contracts to reveal the type and nature of the contractual relationships between parties and discusses all types of fundamental transactions, including sales, loans, debt transfers, partnerships, and more. Written by experts from the International Islamic University Malaysia, the leading organisation in research in Islamic finance Closes a vital gap in the English-language literature on Islamic commercial law Features end-of-chapter questions to enable self-testing and provoke critical thinking An ideal guide for current students, researchers, and practitioners, Islamic Commercial Law offers a concise yet comprehensive coverage of the subject.

This research is undertaken from a comparative perspective with a view to identifying any patterns followed by Islamic countries in making declarations and reservations to the main international human rights treaties. It measures and analyzes to what extent Sharia affects the ratification and implementation of human rights norms by Muslim States. An analysis of the various roles of Sharia reveals different approaches in the use of Islamic considerations by Muslim States. At an international level, Sharia has always been used upon the ratification of international human rights treaties to limit the scope of the State's engagement. Internally, however, some recent examples of legislative amendments and judicial activities demonstrate that Sharia is and can be used to achieve a better translation of human rights norms into domestic practice.

The Two Faces of Islam

The United States is one of the most religious places on earth, but it is also a nation of shocking religious illiteracy. Only 10 percent of American teenagers can name all five major world religions and 15 percent cannot name any. Nearly two-thirds of Americans believe that the Bible holds the answers to all or most of life's basic questions, yet only half of American adults can name even one of the four gospels and most Americans cannot name the first book of the Bible. Despite this lack of basic knowledge, politicians

and pundits continue to root public policy arguments in religious rhetoric whose meanings are missed—or misinterpreted—by the vast majority of Americans. "We have a major civic problem on our hands," says religion scholar Stephen Prothero. He makes the provocative case that to remedy this problem, we should return to teaching religion in the public schools. Alongside "reading, writing, and arithmetic," religion ought to become the "Fourth R" of American education. Many believe that America's descent into religious illiteracy was the doing of activist judges and secularists hell-bent on banishing religion from the public square. Prothero reveals that this is a profound misunderstanding. "In one of the great ironies of American religious history," Prothero writes, "it was the nation's most fervent people of faith who steered us down the road to religious illiteracy. Just how that happened is one of the stories this book has to tell." Prothero avoids the trap of religious relativism by addressing both the core tenets of the world's major religions and the real differences among them. Complete with a dictionary of the key beliefs, characters, and stories of Christianity, Islam, and other religions, *Religious Literacy* reveals what every American needs to know in order to confront the domestic and foreign challenges facing this country today.

Since its formation in 1932, Saudi Arabia has been ruled by two interdependent families. The Al Sa'uds control politics and the descendants of Ibn Abd al-Wahhab impose Wahhabism—a violent, fanatical perversion of the pluralistic Islam practiced by most Muslims. Stephen Schwartz argues that Wahhabism, vigorously exported with the help of Saudi oil money, is what incites Palestinian suicide bombers, Osama bin Laden, and other Islamic terrorists throughout the world. Schwartz reveals the hypocrisy of the Saudi regime, whose moderate facade conceals state-sponsored repression and terrorism. He also raises troubling questions about Wahhabi infiltration of America's Islamic community and about U.S. oil companies sanitizing Saudi Arabia's image for the West. This sharp analysis and eye-opening expose illuminates the background to the September 11th

Frankenstein; or, The Modern Prometheus is a novel written by Mary Shelley about a creature produced by an unorthodox scientific experiment. Shelley started writing the story when she was nineteen, and the novel was published when she was twenty-one. The first edition was published anonymously in London in 1818. Shelley's name appears on the second edition, published in France in 1823. The original 1818 'Uncensored' Edition of Frankenstein as first published anonymously in 1818. This original version is much more true to the spirit of the author's original intentions than the heavily revised 1831 edition, edited by Shelley, in part, because of pressure to make the story more conservative. Many scholars prefer the 1818 text to the more common 1831 edition. Mary Wollstonecraft Shelley (1797–1851) was an English novelist, short story writer, dramatist, essayist, biographer, and travel writer, best known for her Gothic novel Frankenstein: or, The Modern Prometheus.

Introduction to Politics

Jihad

It was the original forever war, which went on interminably, fuelled by religious fanaticism, personal ambition, fear of hegemony, and communal suspicion. It dragged in all the neighbouring powers. It was punctuated by repeated failed ceasefires. It inflicted suffering beyond belief and generated waves of refugees. No, this is not Syria today, but the Thirty Years' War (1618-48), which turned Germany and much of central Europe into a disaster zone. The Thirty Years' War is often cited as a parallel in discussions of the Middle East. The Peace of Westphalia, which ended the conflict in 1648, has featured strongly in such discussions, usually with the observation that recent events in some parts of the region have seen the collapse of ideas of state sovereignty--ideas that supposedly originated with the 1648 settlement. Axworthy, Milton and Simms argue that the Westphalian treaties, far from enshrining state sovereignty, in fact reconfigured and strengthened a structure for legal resolution of disputes, and provided for intervention by outside guarantor powers to uphold the peace settlement. This book argues that the history of Westphalia may hold the key to resolving the new long wars in the Middle East today.

is timeless. It is essential reading for anyone who wants to understand America. Praise for The Autobiography of Malcolm X “Malcolm X’s autobiography seemed to offer something different. His repeated acts of self-creation spoke to me; the blunt poetry of his words, his unadorned insistence on respect, promised a new and uncompromising order, martial in its discipline, forged through sheer force of will.”—Barack Obama, *Dreams from My Father* “Extraordinary . . . a brilliant, painful, important book.”—The New York Times “A great book . . . Its dead level honesty, its passion, its exalted purpose, will make it stand as a monument to the most painful truth.”—The Nation “The most important book I’ll ever read, it changed the way I thought, it changed the way I acted. It has given me courage I didn’t know I had inside me. I’m one of hundreds of thousands whose lives were changed for the better.”—Spike Lee “This book will have a permanent place in the literature of the Afro-American struggle.”—I. F. Stone

From references to animals in the Qu'ran to modern-day websites on Islamic vegetarianism, Richard C. Foltz presents the first comprehensive study of the role of animals in the Islamic tradition. Drawing on a wide range of sources, including classic mysticism, Foltz traces the development of Islamic attitudes towards animals over the centuries and confronts the key ethical questions facing Muslims today. Modern advances in science and technology and the increasing prevalence of techniques such as

bioengineering and factory farming have forced many religions to reassess their traditional notions of animal rights and, as Foltz demonstrates, Muslims are increasingly asking their tradition to respond to such issues. Scholarly yet accessible, this is an original and informative contribution to Islamic studies, and will be essential reading for anyone, Muslim or non-Muslim, with an interest in the significance of religion and culture for the contemporary animal rights debate.

The Autobiography of Malcolm X

William Shepard, an experienced teacher in the field, traces the history of Islam, from its early environment and origins in the life and career of Mohammed, through its classical expressions to its interactions with the West in the modern world. Shepard devotes a chapter each to important topics such as The Qur'an, Islamic law, Islamic theology, and the Sufi movement. In addition to this, four chapters are devoted to studies of Islam in individual countries: Turkey, Iran, Egypt and Indonesia, and Shepard explores Islamic civilization through discussion of Islamic art and culture, and community rituals. -- Back cover.

The Message

This title was first published in 2002. This text seeks to provide the necessary background for understanding the contemporary relationship between Islam and modern science. Presenting an authentic discourse on the Islamic understanding of the physical cosmos, Muzaffar Iqbal explores God's relationship to the created world and the historical and cultural forces that have shaped and defined Muslim attitudes towards science. What was Islamic in the Islamic scientific tradition? How was it rooted in the Qur'anic worldview and whatever happened to it? These are some of the facets of this account of a tradition that spans eight centuries and covers a vast geographical region. Written from within, this groundbreaking exploration of some of the most fundamental questions in the Islam and science discourse, explores the process of appropriation and transformation of the Islamic scientific tradition in Europe during the three centuries leading up to the Scientific revolution.

Americans pursue life and liberty through their religious freedom, economic well-being, and self-governance that includes a basic understanding of the constitutional principles provided by our founding fathers. Hopefully, our pursuit of life and liberty also includes a curiosity to explore our rich and diverse history. Americans Knocking at Freedoms Door is a uniquely American heritage of religious freedoms and government of and by the people. The author, Bernie Lee Yoder Smith-DeBoe, presents a conversational discussion and a historical exploration of our Christian roots. This book begins with Noahs ark and continues with the ancient tribes, the Middle Ages, religious wars, American DNA, and why the early settlers came to America. Our knowledge of American history generally includes our founding fathers, the Civil War, and more contemporary wars; however, this tells us very little about our early settlers, their challenges, and their background as people of religious faith. Bringing together an expert team of authors, *Introduction to Politics, Second Edition*, provides an intellectually stimulating yet accessible introduction to politics that takes current global realities into account. The text is divided into three sections that reflect the authors' expertise: concepts and ideologies, comparative politics, and international relations. Moving beyond a descriptive narrative, the authors take an analytical approach that introduces students to the debates and inherent complexities of the topics covered. Adopting an international perspective, the authors avoid a focus on Western democracies and assumptions of liberal democratic supremacy, instead illustrating points by using examples from a wide range of places including the Islamic states, Eastern Europe, Asia, and Africa. One third of the book is dedicated to international relations, and the authors also examine transnational

Most contemporary journalistic and scholarly accounts of the instability gripping Afghanistan and Pakistan have argued that violent Islamic extremism, including support for the Taliban and related groups, is either rooted in Pashtun history and culture, or finds willing hosts among their communities on both sides of the Afghanistan-Pakistan border. fabric is central to these dynamics, and a critical failure of nation- and state-building in both states. In his book he argues that religious extremism is the product of these critical failures and that responsibility for the situation lies to some degree with the elites of both countries. Introducing Islam

Are Islam and the West on a collision course? From the Ayatollah Khomeini to Saddam Hussein, the image of Islam as a militant, expansionist, and rabidly anti-American religion has gripped the minds of Western governments and media. But these perceptions, John L. Esposito writes, stem from a long history of mutual distrust, criticism, and condemnation, and are far too simplistic to help us understand one of the most important political issues of our time. In this new edition of *The Islamic Threat: Myth or Reality?*, Esposito places the challenge of Islam in critical perspective. Exploring the vitality of this religion as a global force and the history of its relations with the West, Esposito demonstrates the diversity of the Islamic resurgence--and the mistakes our analysts make in assuming a hostile, monolithic Islam. This third edition has been expanded to include new material on current affairs in Turkey, Afghanistan, Palestine, and Southeast Asia, as well as a discussion of international terrorism.
