## Phonics Pathways

## **The Chattering Forest**

A new edition of this best-selling thesaurus from Oxford has 150,000 synonyms and antonyms, which are organized with those closest in meaning to the headword placed first in the entry. This is a major departure from the A-Z organization of entries in the current edition, and now brings this closer into line with Oxford's larger thesauruses. There is clear and comprehensive cross-referencing to both relevant alternative and opposite words, which improves the accessibility of the text. There are an increased number of example phrases to clarify tricky or unusual words. In the appendix there is a new 16-page Word Builder which consists of thematic noun lists, such as architectural styles, parts of the body, and collective terms for animals. This will help the user widen their vocabulary. The improved design opens up the text to make it far more accessible than the previous edition.

Seven months after dying in a skiing accident, eighteen-year-old Kevin returns to Earth from the afterworld to deliver a message to a deceased friend's mother and to come to terms with his own conflicted feelings about his father.

### **Westerly**

Counting, rhyming, picture book for young children.

### **Original Story by**

After the holidays, Humphrey is shocked by a big surprise in Room 26-a new class pet! Humphrey tries to be welcoming, but Og the frog doesn't respond to any of his friendly squeaks or visits (remember, he has a lock-that-doesn't-lock). Plus, the students are so interested in Og, they almost stop paying attention to Humphrey altogether. Humphrey doesn't like the mad-bad-sad feelings he's had since Og came, but luckily he still gets to have adventures with different kids on the weekends. Friendship can be tricky, but Humphrey is an intrepid problem-solver. If any hamster can become buddies with a frog, he can.

The universe isn't what it used to be. With the new Alliance between the Triad and the United Coalition, Captain Tasha "Sass" Sebastian finds herself serving under her former nemesis, biocybe Admiral Branden Kel-Paten—and doing her best to hide a deadly past. But when an injured mercenary winds up in their ship's sick bay—and in the hands of her best friend, Dr. Eden Fynn—Sass's efforts may be wasted. Wanted rebel Jace Serafino has information that could expose all of Sass's secrets, tear the fragile Alliance apart—and end Sass's career if Kel-Paten discovers them. But the biocybe has something to hide as well, something once thought impossible for his kind to possess: feelings . . . for Sass. Soon it's clear that their prisoner could bring down everything they once believed was worth dying for—and everything they now have to live for. From the Paperback edition.

## **Congressional Record**

Offering insights into the effective use of writing to teach students to think like professionals in various fields, this book is the result of a 7-year naturalistic study. The book documents how a writing specialist paired with an experienced professor in another discipline (business, history, psychology, and biology) to study: (1) teachers' expectations about "good" writing and thinking in each discipline; (2) the kinds of difficulties students encountered in trying to meet those expectations; and (3) how teachers' methods and students' strategies helped or hindered progress. Chapters in the book are: "Preview of the Book" (Barbara E. Walvoord and Lucille Parkinson McCarthy); "Research Theory and Methods" (Lucille Parkinson McCarthy and Barbara E. Walvoord); "Managerial Decision Making: Sherman's Business Course" (Barbara E. Walvoord and A. Kimbrough Sherman); "Arguing and Debating: Breihan's History Course" (Barbara E. Walvoord and John R. Breihan); "Using Social Science to Help Oneself and Others: Robison's Human Sexuality Course" (Barbara E. Walvoord and Susan Miller Robison); "Conducting and Reporting Original Scientific Research: Anderson's Biology Class" (Virginia Johnson Anderson and Barbara E. Walvoord); and "Conclusion" (Barbara E. Walvoord and Lucille Parkinson McCarthy). A primary trait analysis for Anderson's biology class, 1 table of data, and a list of 154 references are attached. (RS)
