This is our second (of three) collections of Space Patrol stories by "Eando Binder" (Otto O. Binder). Starting with the February, 1946 issue, every issue of Captain Marvel Adventures included a 2-page short story featuring Lt. Jon Jarl of the Space Patrol. These juvenile space operas -- designed to appeal to kids -- featured daring-do by a two-fisted young member of the Space Patrol. In a solar system where seemingly every planet and moon can support life and the asteroid belt harbors numerous space pirates and criminals, Jon Jarl always seems to save the day. If you've seen the early TV adventures of Captain Video and His Video Rangers, Space Patrol, or Tom Corbett, Space Cadet -- which were clearly influenced by Binder's writing (as well as the shared universe of "space opera" that had been developed in Amazing Stories magazine under editor Ray Palmer) -- you will know what you're in for a ride into the Wild West of outer space, where physics and logic

never get in the way of a good story! Includes 30 short stories.

Daredevil By Chip Zdarsky Vol. 1

One of Charles Bukowski's best, this beer-soaked, deliciously degenerate novel follows the wanderings of aspiring writer Henry Chinaski across World War II-era America. Deferred from military service, Chinaski travels from city to city, moving listlessly from one odd job to another, always needing money but never badly enough to keep a job. His day-to-day existence spirals into an endless litany of pathetic whores, sordid rooms, dreary embraces, and drunken brawls, as he makes his bitter, brilliant way from one drink to the next. Charles Bukowski's posthumous legend continues to grow. Factotum is a masterfully vivid evocation of slow-paced, low-life urbanity and alcoholism, and an excellent introduction to the fictional world

of Charles Bukowski.

John Wade grew up in the 1950s, a decade that has since been dubbed the 'golden age of science fiction'. It was a wonderful decade for science fiction, but not so great for young fans. With early television broadcasts being advertised for the first time as 'unsuitable for children' and the inescapable barrier of the 'X' certificate in the cinema barring anyone under the age of sixteen, the author had only the radio to fall back on - and that turned out to be more fertile for the budding SF fan than might otherwise have been thought. Which is probably why, as he grew older, rediscovering those old TV broadcasts and films that had been out of bounds when

he was a kid took on a lure that soon became an obsession. For him, the super-accuracy and amazing technical quality of today's science fiction films pale into insignificance beside the radio, early TV and B-picture films about people who built rockets in their back gardens and flew them to lost planets, or tales of aliens who wanted to take over, if not our entire world, then at least our bodies. This book is a personal account of John Wade's fascination with the genre across all the entertainment media in which it appeared – the sort of stuff he revelled in as a young boy – and still enjoys today.

From 1966 to 1968, both on ABC and in theaters, America embraced Batman as a campy cultural icon. But in the ensuing decades, many vilified the show as an embarrassment that needed to be swept under the rug if Batman -- and super-heroes -- were to be taken seriously. Now, we can return to Adam West's Gotham to the unapologetic fun of colorful, cackling villains hatching bizarre schemes to phrases like "Atomic batteries to power!" and "Same bat-time, same bat-channel!..". to deadpan heroes climbing walls and defying deathtrap cliffhangers and find these aspects rich with cultural meanings we may have ignored. GOTHAM CITY 14 MILES offers the series the critical reevaluation it deserves. The book's diverse essays examine Batmania, camp, the role of women, the show and '60s counter-culture, the show's celebrated actors, its lasting cultural effects, and other subjects.
