The Roar of Courage

For the first time, scientists could have the knowledge to prevent a natural disaster epic in scale—an asteroid hitting the earth and in this exciting, adventuresome

book, Carrie Nugent explains how. What are asteroids, and where do they come from? And, most urgently: Are they going to hit the Earth? What would happen if one was on its way? Carrie Nugent is an asteroid hunter—part of a group of scientists working to map our cosmic neighborhood. For the first time ever, we are reaching the point where we may be able to prevent the horrible natural disaster that would result from an asteroid collision. In *Asteroid Hunters*, Nugent reveals what known impact asteroids have had: the extinction of the dinosaurs, the earth-sized hole Shoemaker Levy 9 left in Jupiter just a few decades ago, how the meteorite that bursted over Chelyabinsk in Russia could have started a war, and unlucky Ms. Anne Hodges—the only person (that we know of) in US history to be the victim of a direct hit. Nugent also introduces the telescope she uses to detect near-Earth asteroids. Ultimately, detection is the key to preventing asteroid impact, and these specialized scientists are working to prevent the unthinkable from happening. If successful, asteroid hunting will lead to the first natural disaster humans have the know-how and the technology to prevent. The successful hunt and mapping of asteroids could mean nothing less than saving life on earth.

Faith. Trust. Triumph. “I’m sorry,” the doctor said. “He is permanently and totally blind. There is nothing we can do for him.” George and Sarah Hingson looked at each other, devastated. Their six-month-old son, Michael was a happy, strawberry blond baby boy, healthy and normal in every way except one. When the Hingsons switched on a light or made silly faces, Michael did not react. Ever. “My best suggestion is that you send him to a home for the blind,” the doctor continued. “He will never be able to do anything for himself.” Forty-seven years later, a yellow Labrador retriever puppy was born in the whelping unit of Guide Dogs for the Blind in San Rafael, California. The puppy’s name was Roselle. On September 11, 2001, she saved Michael’s life. This is Roselle’s story too. —From the Introduction Every moment in Michael Hingson’s and Roselle’s lives seemed to lead up to this day. When one of four hijacked planes flew into the World Trade Center’s north tower on September 11, 2001, Michael Hingson, a district sales manager for a data protection and network security systems company, was sitting down for a meeting. His guide dog, Roselle, was at his feet. Paired for twenty-one months, man and dog spent that time forging a bond of trust, much like police partners who trust their

lives to each other. Michael couldn't see a thing, but he could hear the sounds of shattering glass, falling debris, and terrified people flooding around him and Roselle. However, Roselle sat calmly beside him. In that moment, Michael chose to trust Roselle's judgment and not to panic. They were a team. Thunder Dog is a story that will forever change your spirit and your perspective. It illuminates Hingson's lifelong determination to achieve parity in a sighted world and how the rare trust between a man and his guide dog can inspire an unshakable faith in each one of us.

decisions about our increasingly technology-driven lives if we don't understand the difference between the myths of pseudoscience and the testable hypotheses of science? Pulitzer Prize-winning author and distinguished astronomer Carl Sagan argues that scientific thinking is critical not only to the pursuit of truth but to the very well-being of our democratic institutions. Casting a wide net through history and culture, Sagan examines and authoritatively debunks such celebrated fallacies of the past as witchcraft, faith healing, demons, and UFOs. And yet, disturbingly, in today's so-called information age, pseudoscience is burgeoning with stories of alien abduction, channeling past lives, and communal hallucinations commanding growing attention and respect. As Sagan demonstrates with lucid eloquence, the siren song of unreason is not just a cultural wrong turn but a dangerous plunge into darkness that threatens our most basic freedoms. Over the course of one unforgettable year, he steadily procures his ingredients—fishing for stingrays in Florida, hunting mountain goats in Alaska, flying to Michigan to obtain a fifteen-pound snapping turtle—and encountering one colorful character after another. And as he introduces his vegetarian girlfriend to a huntsman's lifestyle, Rinella must also come to terms with the loss of his lifelong mentor—his father. A combination of Jungian study, literary analysis, and therapy, this guide offers a powerful vision for capitalizing on synchronicity to instill peace in the self and the world. Synchronous moments are more than pure chance, coincidence, and dumb luck; this book shows that by recognizing them as a connection to a much larger, older pattern, readers can use the myths of culture and 1,000-year-old civilizations to guide themselves out of suffering and into tranquility. Starting with a new explanation of synchronicity and then offering practical instructions and exercises to tap into this collective wisdom, the book helps readers identify the mythic patterns that guide humanity, allowing them to face inner monsters without fear, convert them into love and compassion, and relax as part of a universal harmony.

A few years ago, MySpace.com was just an idea kicking around a Southern California spam mill. Scroll down to the present day and MySpace is one of the most visited Internet destinations in America, displaying more than 40 billion webpage views per month and generating nearly \$1 billion annually for Rupert Murdoch's online empire. Even by the standards of the Internet age, the MySpace saga is an astounding growth story, which climaxed with the site's acquisition by Murdoch's News Corporation in 2005 for a sum approaching one billion dollars. But more than that, it may be the defining drama of the digital era. In Stealing

MySpace, Pulitzer Prize-winning journalist Julia Angwin chronicles the rise of this Internet powerhouse. With an unerring eye, Angwin details how MySpace took the Internet by storm by grabbing the best ideas from around the Web, encouraging pinup stars such as Tila Tequila to make their home on its pages and giving everyone freedom to experiment with online identities—including using somebody else’s identity. *Stealing MySpace* introduces us to the site’s founders, Chris DeWolfe and Tom Anderson, who dabbled in computer hacking, online pornography, spam, and spyware before starting MySpace. Although their street savvy, doggedness, and clubbing skills far eclipsed their tech prowess, they stumbled their way to success and soon found themselves at ground zero of a high-stakes war that pitted Rupert Murdoch against his frequent nemesis, the combative Viacom CEO Sumner Redstone. Angwin sheds light on the dizzying backroom deals that allowed Murdoch to snatch MySpace from Viacom’s grasp even as the MySpace founders remained in the dark about their own fate. Then she takes us inside the Murdoch empire as DeWolfe and Anderson lobby furiously to regain control of their creation. Venturing beyond the business aspects of the story, Angwin also explores the Internet culture, a voyeuristic world in which MySpace must stay one step ahead of amateur pornographers, sexual predators, and “spoofers” who set up fake profiles (Rupert Murdoch himself tolerates dozens of phony “Ruperts” on the site) and cope with the general excesses and sometimes illegal acts of a community of account holders equal in number to the population of Japan. In *Stealing MySpace*, Julia Angwin dishes on the epic real-world battle for

control of a virtual empire. In a savvy, smart, fast-paced narrative reminiscent of Bryan Burrough and John Helyar's *Barbarians at the Gate* and Michael Lewis's *The New New Thing*, *Stealing MySpace* tells is the whole gripping story behind a breakout cultural phenomenon.

In order to succeed in *World of Warcraft Classic*, you will need a lot of gold. In addition to the thousands of gold you will spend on your spells, mounts, gear, enchantments, and respecs, you will also need to consistently purchase large quantities of consumables and utility items to stay competitive in serious raiding/PvP. Without enough gold, you will always be outclassed by players who do have enough. However, accumulating gold is very difficult in *World of Warcraft*. By the time *The Burning Crusade* was about to launch, *World of Warcraft (WoW)* had 8 million active subscribers with likely millions more accounts that were created but

stopped subscribing at some point. Out of the millions of players who played the game, there was not a single recorded instance of someone hitting the gold cap (~215,000 gold) on one character. This means it is more common for someone to be a billionaire in America (about 1 out of 600,000) than it is for someone to have 215,000 gold. This is why I have compiled the most comprehensive, optimal, and practical guide on gold making in World of Warcraft Classic. I played the original WoW through Wrath of the Lich King with a Hunter main and Druid alt and have played on 3 different vanilla WoW private servers where I have over 25 level 60 characters and amassed hundreds of thousands of gold among them. My love of the game evolved past raiding and PvPing and I became consumed by the economic PvP (competing against other goblins to earn more gold). With WoW Classic's release, I am happy to finally share everything I have learned about making gold. This book will cover the most optimal and practical strategies for gold making while discarding the less optimal ones that are often repeated in popular guides. This book will also include resources such a full list of level appropriate mobs to grind while leveling, a full list of the most lucrative twink items in the level 19 and 29 brackets, a full list of the most lucrative BoE limited supply vendors to camp, a step by step action plan for the launch of Classic WoW and much much more.

Where Mercy Is Shown, Mercy Is Given. "Who is going to give them the ride, Duane? Who will give them the cigarette and who will give them 'the talk'?" When the preacher posed those questions to me, I realized he was right. If not me, then who? Whether I had planned it or not, I was leading a backseat ministry, one ride at a time. --from Where Mercy Is Shown, Mercy Is Given Considered by many to be the world's greatest bounty hunter, Duane "Dog" Chapman has become famous for capturing fugitives on Dog the Bounty Hunter, his #1 rated show on A&E. But his job doesn't end when he cuffs his man--or woman. Having personally struggled against abuse, addiction, and a life of crime, Dog knows a thing or two about the path that these fugitives cuffed in the back of his car are on--and he has a good idea of the bad news they'll find at the end of it. As someone who has succeeded in beating the odds and finding a way to live on the right side of the law, Dog also knows what the person in the backseat needs to hear in order to straighten out his or her life. "This is your wake up call. You either answer it now, or pay for it later and for the rest of your life. You're being given another shot at things, but only if you take the risk to make the right decision. The choice is yours. What's it going to be, brotha?" While he is himself a mentor to many, Dog draws strength from the great teachers in his own life to face the surprising and difficult challenges that have come his way. Through hard work, unflinching faith, and the acknowledgment of his own flaws--along with the overwhelming desire to fix those flaws--Dog has been through the fire again and again, and come out the stronger for it. Revealing, behind-the-scenes looks at Dog's most significant challenges, along with seat-of-
