Any Baedeker will tell us where we ought to travel, but only Alain de Botton will tell us how and why. With the same intelligence and insouciant charm he brought to *How Proust Can Save Your Life*, de Botton considers the pleasures of anticipation; the allure of the exotic, and the value of noticing everything from a seascape in Barbados to the takeoffs at Heathrow. Even as de Botton takes the reader along on his own peregrinations, he also cites such distinguished fellow-travelers as Baudelaire, Wordsworth, Van Gogh, the biologist Alexander von Humboldt, and the 18th-century eccentric Xavier de Maistre, who catalogued the wonders of his bedroom. *The Art of Travel* is a wise and utterly original book. Don't leave home without it. From the Trade Paperback edition.

Galaxy S II: The Missing Manual

A troubling account of heterosexual desire in the era of #MeToo. Heterosexuality is in crisis. Reports of sexual harassment, misconduct, and rape saturate the news in the era of #MeToo. Straight men and women spend thousands of dollars every day on relationship coaches, seduction boot camps, and couple's therapy in a search for happiness. In *The Tragedy of Heterosexuality*, Jane Ward smartly explores what, exactly, is wrong with heterosexuality in the twenty-first century, and what straight people can do to fix it for good. She shows how straight women, and to a lesser extent straight men, have tried to mend a fraught patriarchal system in which intimacy, sexual fulfillment, and mutual respect are expected to coexist alongside enduring forms of inequality, alienation, and violence in straight relationships. Ward also takes an intriguing look at the multi-billion-dollar self-help industry, which markets goods and services to help heterosexual couples without addressing the root of their problems. Ultimately, she encourages straight men and women to take a page out of queer culture, reminding them "about the human capacity to desire, fuck, and show respect at the same time."
