Children with Disabilities in Head Start

'The perfect concise guide to creating your own company from scratch: brilliant' Graham Richards
The Seven Stages to Launch You to Success
There is much to consider when starting a business. Knowing what to do first, whether you have a concept that works for you, what resources to access and how to get started can be overwhelming and seemingly-complicated.
Start-Up Wise is a comprehensive, all-in-one-place guide providing everything you need to know for your journey, outlining seven key steps on how to start, manage and develop your business:
Generating, developing and confirming your business ideas
Correct legal structure and brand identity
Realistic business plan
Financial and tax obligations
Funding options
Cost and time-effective business systems
Building and growing your business for the future
It is important to understand why you are starting a business and then to focus on ideas and steps that will build your ideal growing and successful business. Start-Up Wise has compiled all of the key information in one guide to help you achieve this.

This report, one in a series on the uses of and accountability for Recovery Act (RA) funds in selected states and localities, comments on recipients' reports of the jobs created and retained. The RA provided \$2.1 billion for Head Start and Early Head Start, primarily to expand services. This report addressed four questions: (1) How have Head Start and Early Head Start grantees used RA funds, including for expanding enrollment? (2) What challenges have grantees encountered in spending RA funds? (3) How has the Office of Head Start monitored the use of RA funds? (4) How has the quality of jobs data reported by RA recipients, particularly Head Start grantees, changed over time? Charts and tables. This is a print on demand publication.

Simply Seven

Social service agencies are facing the same expectations in quality management and outcomes as private companies, compelling staff members and researchers to provide and interpret valid and useful research to stakeholders at all levels in the field. Child welfare agencies are particularly scrutinized. In this textbook, two highly experienced researchers offer the best techniques for conducting sound research in the field. Covering not only the methodological challenges but also the real-life constraints of research in child welfare settings, Amy J. L. Baker and Benjamin J. Charvat present a volume that can be used both for general research methods and as a practical guide for conducting research in the field of child welfare. Baker and Charvat devote an entire chapter to ethical issues involved in researching children and their families and the limits of confidentiality within this population. They weave a discussion of ethics throughout the book, and each chapter begins with a scenario that presents a question or problem to work through, enabling readers to fully grasp the methods in the context of a specific setting or area of concern. Special sections concentrate on the value of continuous quality-improvement activities, which enable the collection and analysis of data outside of the strictures of publishable research, and the implementation of program evaluations, which can be helpful in obtaining further research and programmatic funding.

How do writers establish serious literary reputations today?), Delany also examines the condition of the contemporary creative writer and how it differs from that of the writer in the years of Hemingway, Fitzgerald, and the high Modernists. Like a private writing tutorial, *About Writing* treats each topic with clarity and insight. Here is an indispensable companion for serious writers everywhere.

Detective Griessel must solve a cold case to stop a shooter in this thriller from the acclaimed South African author. Two police officers have been shot, and the Cape Town homicide department has received emails from the shooter alleging the cover-up of an unsolved murder. If the cold case isn't reopened immediately, the shooter's carnage will continue. Now Det. Capt. Benny Griessel is out to solve the crime in question: the murder of an ambitious lawyer stabbed to death in her luxury apartment. Unfortunately, there's no apparent motive, forensic evidence, or leads. As Griessel races to piece together an investigation with nothing to go on and his colleague, Capt. Mbali Kaleni, attempts to locate the shooter, a third cop becomes the victim of another barrage of bullets. The shooter is growing bolder by the day, and it's only a matter of time

Lost Freedom addresses the widespread feeling that there has been a fundamental change in the social life of children in recent decades: the loss of childhood freedom, and in particular, the loss of freedom to roam beyond the safety of home. Mathew Thomson explores this phenomenon, concentrating on the period from the Second World War until the 1970s, and considering the roles of psychological theory, traffic, safety consciousness, anxiety about sexual danger, and television in the erosion of freedom. Thomson argues that the Second World War has an important place in this story, with war-borne anxieties encouraging an emphasis on the central importance of a landscape of home. War also encouraged the development of specially designed spaces for the cultivation of the child, including the adventure playground, and the virtual landscape of children's television. However, before the 1970s, British children still had much more physical freedom than they do today. Lost Freedom explores why this situation has changed. The volume pays particular attention to the 1970s as a period of transition, and one which saw radical visions of child liberation, but with anxieties about child protection also escalating in response. This is strikingly demonstrated in the story of how the paedophile emerged as a figure of major public concern. Thomson argues that this crisis of concern over child freedom is indicative of some of the broader problems of the social settlements that had been forged out of the Second World War.

Seven Plays: The Ostend interviews. The women at the tomb. Barabbas. Three actors and their drama. Pantagleize. The blind men. Chronicles of hell. Lord Halewyn

Three actors. One desk. Three chairs. Theatre at its most elemental. "Seven Interviews" offers up seven different short plays, each with an interview format, and each of which illuminates some aspect of the human condition. The seven pieces range from the broadly comic to the achingly tragic. Among the situations set up in the seven pieces are a job interview to replace a secretary who is giving her employer nightmares, a biographer's horrible realization that she doesn't know her subject at all, the matter of a baseball team mascot who is frightening children at the ballpark, a dialogue between psychiatrist and patient with an unexpected outcome, a conference between parent and school principal over the expulsion of the woman's son; along with pieces about a very unlikely customer for a professional hit-man, and an office cleaning lady caught red-handed on Christmas Eve.

Interviews With the Jazz Greats and More!

Are you desperate to get a job? If you've recently been thrust into the cruel world of unemployment or have been searching for so long you'll even settle for a job in fast food... you need to read this. Unemployment rates are at an all-time high. We're constantly competing with people that are younger, more educated and willing to work for pennies. And often being unemployed isn't even your fault—it's because someone higher up than you made a mistake. These days, you're far more likely to lose your job for something you didn't do rather than something you did. And the longer you're out of work, the harder it is to get back in. But it doesn't have to be that way. Now you can turn the odds in your favor. Employers can be looking for you, not the other way around. You will no longer be told that you're overqualified, underqualified, have too much experience or too little. You can set your own terms. Some people think landing a job is about getting lucky at the right time. But do you want to leave your fate (and your family's) to luck? To throw resumes around and hope you get an interview? Luck is where preparation meets opportunity. We can't control the opportunity, but we can control the preparation. You don't have to do this alone. Getting a job is a skill, and like any skill, it can be improved with a system and a mentor. This book is your guide to give you an advantage over the competition and become the perfect candidate. You'll learn... The Seven Key Steps To Getting Hired

1. Focus Have you ever tried to drive to an unknown place without directions? You might get there in the end, but you're bound to get lost. Here you'll learn the seven layers of finding your why and how to position yourself to beat the competition—this is your roadmap to your new job.
2. Getting Them To Choose You A lot of people say they're passionate about the job, but how can you go above and beyond to really show them that you're the best one for the job? One part of this is investing in yourself and your skills, and you'll learn how to get paid to do it.
3. The Specialist Gets Paid If you need heart surgery, would you go to the general doctor or a heart surgeon? When you're a specialist, you can name your price because you're the best at what you do. Discover your rare skills and position yourself as the expert they need.
4. Your Job Search Skills Matter It's really easy to get burned out when looking for a job, we often go through manic cycles and end up getting nowhere in the end. And the key to winning the marathon is in this simple children's tale...
5. Taking Committed Action Fear is a major barrier that holds us back from doing the things which push us forward. You'll learn how to not only overcome that fear, but to see your unemployment like an opportunity.
6. Winning Interviews Did you know that most positions get filled before they are ever offered to the public? These are the skills you need to master in order to get that insider information and be one step ahead of your competition.
7. Getting The Best Offer When someone else controls all the factors and you feel like a puppet on a string—your job search efforts are more like gambling. Learn how to be strategic, control as many factors as you can and land that job. Even if you're desperate... if you feel like you're on the end of your rope... you can take this system and turn your circumstances into your advantage. This book is not just about getting a job, it's getting your career back on track. Scroll up now to claim your copy today—and never be desperate for a job again.

The Method Method

In the late nineteenth century Austro-Hungarian Empire, two Jewish astronomy professors work tirelessly to unearth new academic research for their chosen field. But their participation in adultery, deception, and murder will follow them throughout time, weaving a complicated web into future generations, and setting the stage for the age-old question, Are the sins of the fathers visited upon the sons? Years later, the professors' families having immigrated to Cleveland, Ohio, the old axiom comes to a strange and chilling climax. The grandsons of the astronomers supposedly influenced by ancient Jewish mysticism are murdered one allegedly at the hands of the other. Detective Sergeant Marty Kowalski investigates the murders, with the assistance of an astronomy professor and two of her students from the University of Michigan. Spending considerable time and meticulous effort, Kowalski slowly unravels the complicated past behind the two victims and unearths a shattering truth that will leave both families reeling. A fascinating blend of philosophy, history, and religion, The Noble Profession of Leaf Chasing delivers a compelling read.

The First Edition of InterViews has provided students and professionals in a wide variety of disciplines with the “whys” and “hows” of research interviewing, preparing students for learning interviewing by doing interviews and by studying examples of best practice. The thoroughly revised Second Edition retains its original seven-stage structure, continuing to focus on the practical, epistemological, and ethical issues involved with interviewing. Authors Steinar Kvale and Svend Brinkmann also include coverage of newer developments in qualitative interviewing, discussion of interviewing as a craft, and a new chapter on linguistic modes of interview analysis. Practical and conceptual assignments, as well as new “tool boxes,” provide students with the means to dig deeper into the material presented and achieve a more meaningful level of understanding. New to This Edition · Includes new developments in qualitative interviewing: New materials cover narrative, discursive, and conversational analyses. · Presents interviewing as a social practice: Knowledge produced by interviewing is discussed as linguistic, conversational, narrative, relational, situated, and pragmatic. · Addresses a variety of interviews forms: In addition to harmonious, empathetic interviews, the authors also cover confrontational interviews. Intended Audience This text is ideal for both novice and experienced interview researchers as well as graduate students taking courses in qualitative and research methods in the social sciences and health sciences, particularly departments of Education, Nursing, Sociology, Psychology, and Communication. Praise for the previous edition: “I think this is one of the most in-depth treatments of the interview process that I have seen. The frank and realistic approach that the authors take to this topic is rather unique and will be very reassuring to researchers who are undertaking an interview study for the first time.” —Lisa M. Diamond, University of Utah

Flying has been my dream since before I can remember literally. My Aunt Odette tells me that when I was three years old, she took me with her to the Port-au-Prince International Airport to pick someone up, and when I saw an airliner up close for the first time, I excitedly yelled out, "I want to drive that!" I don't recall that event, but it serves as evidence that my fascination with flying began at a remarkably young age. My first memory of wanting to fly came a few years later at the age of seven. I was on my very first flight, from Port-au-Prince to New York City, where I was going to start a new life in a new country. I remember looking at all the people boarding the airplane and wondering how that "big silver bird" was going to get us into the air (that silver bird was an American Airlines Boeing 727). To this day, the whole experience is vivid in my mind: being greeted with a smile by the captain at the aircraft entry door, the funny feeling in my stomach as the plane accelerated down the runway, leaping into the air, and my utter disbelief that we didn't drop out of the sky! I was mesmerized by it all, and by the time the plane came to a stop at our gate, my dream had been born I wanted to become an airline pilot. I have been blessed to be living that dream since 1999. It's a dream from which I hope never to awaken. This is the story of the lifelong journey I have taken in realizing that dream. I invite you to come along with me as we go from my birth in Haiti to the present day, as I live my dream every day. You will come with me as I move to America at the age of seven, a country I knew nothing about and whose language I didn't speak, a land that would truly prove to be "the land of opportunity." You will feel my sense of wonder and bewilderment growing up in New York City, trying to understand my new world. You will face my struggles to fit in with the kids in the housing project where my family lived for a decade as Mom and Dad saved money to buy a house. You will meet my parents, who encouraged my dream of flying, and my fifth grade teacher who helped me to see that it was possible not only to dream it, but also to achieve it. It's a story of potential fulfilled, and my family's sacrifices to get me through college and flight school. You will fly with me from my first lesson to my first airline job as a copilot, to the day I earned my four-stripes and first heard someone call me "Captain." You will sit

with me in the captain's seat as I fly an airline jet over Haiti for the first time, looking down from thirty-eight thousand feet onto the land of my birth where my dream had been born. You will soar with me over the majestic Amazon jungle in Brazil, over the desert-flanked Nile River in Egypt, and the sparkling Mediterranean Sea. You will fly with me through New York City blizzards, Indian monsoons, and Arabian sandstorms. You will travel with me on adventures to Europe, South America, the Middle East, South Asia, the Caribbean, and other parts of the world I used to dream of going to as a child; places that have affected me profoundly and where I left a little part of myself. I have seen all these things through the eyes of the seven year-old boy from Haiti that I was and in many ways, still am; the little boy who had a sense of just how incredible the world and life are, who dreamt of a life of worldwide adventure, and was blessed to have his dream come true. That is the reason for the title of this book, "The Seven Year-Old Pilot," because even after years of flying around the world, in many ways, I still feel like that little boy, and I always try to approach my travels and my life with his sense of gratitude, amazement, and awe. I truly believe that every one of us has life experiences and lessons worth sharing that can inspire, enlighten, teach, and benefit others because we have all liv

Communication is frequently identified in the literature as a major factor impacting Information Technology (IT) project failure. The importance of communication is amplified in buyer - seller relationships through the long-term impact of project failures on the future business of IT vendors with their customers. The formal communication between IT project sponsors from buyer firms and project managers from IT vendor firms within business to business markets is investigated through this study. Typical communication patterns between project sponsor and manager in high and low performing projects are identified. The antecedents of these patterns are assessed and the effectiveness of project sponsor - manager communication investigated. A multi-method approach is used with a quantitative analysis of a worldwide survey with 200 responses, followed by a qualitative analysis of three interviews with pairs of project sponsor and manager, each pair from the same project. Results show that project sponsors expect more analytic and verbal communication from project managers. A model shows the development from frequent informal communication to formal communication between project managers and sponsors. A second model shows how communication in high performing projects is determined by the level of collaboration between project managers and sponsors, as well as the degree of structure in project execution. Effectiveness of project sponsor and manager communication is found to be decreased through written statements about recent achievements, and increased through face-to-face meetings of the parties. A series of recommendations is provided to improve project sponsor - manager communication.
