Teach the Latin, I Pray You

The impact of ICT on the teaching of classical languages, literature and culture has not until now been extensively described and evaluated. Nevertheless, educational technology has made a huge difference to the ways in which Classics is taught at junior, senior and college level. The book brings together twenty major approaches to the use of technology in the classroom and presents them for a wide,

international audience. It thus forms a record of current and developing practice, promotes further discussion and use among practitioners (teachers, learners and trainers) and offers suggestions for changes in pedagogical practices in the teaching of Classics for the better. The many examples of practice from both UK and US perspectives are applicable to countries throughout the world where Classics is being taught. The more traditional curricula of high-school education in the UK and Europe are drawing more and more on edutech, whereas educational jurisdictions in the US are increasingly expecting high-school students to use ICT in all lessons, with some actively dissuading schools from using traditional printed textbooks. This book presents school teachers with a vital resource as they adapt to this use of educational technology in Classics teaching. This is no less pertinent at university level, in the UK and US, where pedagogy tends to follow traditionalist paradigms: this book offers lecturers frameworks for understanding and assimilating the models of teaching and learning which are prevalent in schools and experienced by their students.

Slavery and Social Death

This is the first full-scale comparative study of the nature of slavery. In a work of prodigious scholarship and enormous breadth, which draws on the tribal, ancient, premodern, and modern worlds, Orlando Patterson discusses the internal dynamics of slavery in sixty-six societies over time. These include Greece and Rome,

medieval Europe, China, Korea, the Islamic kingdoms, Africa, the Caribbean islands, and the American South. Slavery is shown to he a parasitic relationship between master and slave, invariably entailing the violent domination of a natally alienated, or socially dead, person. The phenomenon of slavery as an institution, the author argues. is a single process of recruitment, incorporation on the margin of society, and eventual manumission or death.

Ecce Romani

Language Teachers' Narratives of Practice is a collection of seventeen essays that examine personal and professional stories of, and by, language teachers in diverse Australian contexts. The voices of twenty-one Australian language teachers in all, describe teachers' own linguistic and cultural, personal and professional narratives, and how each narrative has informed the construction of their classroom language

teaching practice to suit their teaching contexts. We see how teachers make individual responses to emerging pedagogies, developed through the lens of their personal experience and understanding of language and culture. In our invitations to these teachers to contribute chapters to the book, we have encouraged them to make visible the diversity within the Australian language teaching context. This is a new resource for use in a professional development context, for pre-service teachers, in-service teachers, tertiary teacher educators and researchers. This resource will serve as a practical text for teachers to draw on, to extend their own professional knowledge and classroom practice in relevant, useful and diverse areas. The narratives can be examined as case studies of teacher identity and life-worlds, development of pedagogies, intercultural learning, and the differentiation and adaptation needed in particular environments, within a diverse environment such as Australia.

In this text for upper-beginner and intermediate students, Brian Beyer collects authentic Latin prose from Book I of Eutropius's Breviarium ab urbe condita, which covers Roman history from its foundation to the sack of Rome by the Gauls. Eutropius's easy style and accessible vocabulary make his Breviarium ideal for students transitioning from the simplified Latin of a first-year textbook. Bottom-of-the-page glosses, passages in English from the Roman historian Livy, a running commentary on grammar and syntax, historical notes, and compiled vocabulary allow students insight into the foundational myths of ancient Rome and the historical context of Eutropius's narrative.

JACT Review

Using an introduction to mythology by the master storyteller Ovid himself, the authors have prepared a unique teaching tool designed to achieve proficiency at Latin in one year at the college level, two years at the high school or intermediate level. The volume provides students with imaginative, connected reading, beginning with introductory prose versions of Ovid's simple myth tales and progressing to the rich poetry of Ovidian Latin (with appropriate teaching aids) within forty lessons. The grammatical approach is traditional, but the central emphasis is on reading. In each chapter the reading appears first, followed by the vocabulary, the grammar, exercises, and etymology relating to the vocabulary. The exercises begin with a group of questions in Latin (based on the reading), to be answered in Latin. Each tale is preceded by a brief discussion in English of the story and its mythological significance. The myths retold by Ovid and the attractive format are conceived to impel the student into acquiring the skill to read the

author in the original language. For additional complimentary materials on this topic, please see Latin Via Ovid Audio materials (available via downloadable flash drive and cassette tapes) by Norma Goldman and Jacob E. Nyenhuis and the accompanying text Practice, Practice: A Latin Via Ovid Workbook by Norma Goldman and Michael Rossi.

Getting Started with Latin is divided into simple lessons that explain the fundamentals of Latin grammar in a way that anyone can grasp.

Learn to Read Latin

Teaches children the basics of Latin grammar and vocabulary, as well as Roman British history and culture, through vocabulary lists, mythical tales, and illustrations.

Ecce Romani Level 2

A Latin grammar and reader all in one when the text and workbook are used

together, Learn to Read Latin presents basic Latin morphology and syntax with clear explanations and examples, and it offers direct access to great works of Latin literature even at the earliest stages of learning the language. As beginning students learn basic forms and grammar, they also gain familiarity with patterns of Latin word order and other features of style, thus becoming well prepared for later, more difficult texts. No other beginning Latin book contains as many unaltered versions of ancient texts. Learn to Read Latin includes the writings of such authors as Caesar, Cicero, Sallust, Catullus, Vergil, and Ovid, arranged chronologically and accompanied by introductions to each author and each work. These readings serve as the chief training texts around which the book's fifteen chapters are constructed. A workbook is also available, providing abundant drills for each chapter of the text. A flexible format allows the workbook exercises to be used in the classroom, for homework assignments, for extra individual drill work, or as a home study tool.
