For decades, modern seekers have experimented and studied with many diverse teachers and religions, but Stuart Wilde says in that toward the end of a long spiritual journey we all seek the same thing: redemption. None of us is perfect, and yet through embracing that imperfection and reconciling it, we become a complete being - encompassing both the light and the dark. As Stuart says: "Many mystics, holy people, and even the Hopi Indians have predicted a new age of enlightenment, and they are not wrong in my view. It has arrived, and with it has come a whole host of fascinating phenomena never seen before. We are stepping into a magical new era . . . the age of forgiveness." It is when the ivory tower of the ego's ideas falls that we can then embrace a new humility, allowing us to become ever more

genuine, compassionate, and real. In this fascinating book, Stuart makes the point that the process of redemption and forgiveness comes from incorporating the Three Graces in one's heart: tenderness, generosity, and respect.

To the Cardassians, it is a point of pride. To the Klingons, a matter of honour. But the eighteen-year cold war between these two empires -- euphemistically remembered in later years as the Bretaka Nebula Incident -- creates a vortex of politics, diplomacy and counterintelligence that will define an age, and shape the future. What begins as a discovery that would enable the Klingon Empire to reclaim a lost piece of its past becomes a prolonged struggle with the rapidly expanding Cardassian Union, which has claimed dominion over a region of space that the Klingons hold sacred. Enter the Federation, whose desire to preserve interstellar space leads Ambassador Curzon Dax to broker a controversial and tenuous peace -- one that is not without opponents, amongst them Lieutenant Elias Vaughan of Starfleet special ops. But there are wheels within wheels to the drama unfolding in the Betreka Nebula. Within the

"English successfully challenges the established educational community to rethink the current state of research on school leadership in the social sciencesThe inclusion of theory, discourse, and stories of recognized leaders followed by chapter learning extensions that include key concepts, movie recommendations, and prompted reflective journaling makes this book a most valuable resource for the educational leadership community." —H.J. Bultinck, CHOICE "The Art of Educational Leadership provides one of the most complete examinations of leadership that I have encountered. I admire the way it urges students to think and reflect. The format allows individual learners to focus on those materials that best fit their learning style while the numerous presentations of a single topic through the different modalities strengthens the learning. This text is a fresh, new look at leadership" —Louise L MacKay, East Tennessee State University "Fenwick W. English returns to themes of leadership he explored in more than 20 earlier books and dozens of presentation to educator audiences. He favors "re-centering educational leadership in the humanities," rather than acting on the recommendation of the business literature, and he emphasizes the use of films as a

way to humanize leadership concepts." —THE SCHOOL ADMINISTRATOR "Excellent cogent analysis of key concepts of leadership are presented in a reader friendly style." —Saul B. Grossman, Temple University Moves beyond established notions of leadership to recognize that effective leading is about drama and performance—artistry! The Art of Educational Leadership: Balancing Performance and Accountability stresses the human side of leadership. No other text on this topic demonstrates so ably the importance of artistry in leadership in a field that has been lopsidedly dominated by concepts informed by science. Presenting the idea that leadership is an art, this book: Exemplifies a balance between the science and the art of educational leadership: The real improvement of practice is rooted in the art of application, which is about context and represents the key to leadership practice. Connects content material to self-discovery: Exercises at the end of each chapter include creating a personal, reflective journal to engage the reader in and reflect upon theories and practices presented in the book. Films are suggested for viewing to illustrate the interaction between context, culture, decisions, and outcomes. Portrays multicultural leadership in action: Biography boxes throughout the book share how multicultural educational and political leaders who have been recognized as "expert" practitioners learned the art of leadership in the public arena. This is the first book in educational leadership to sketch out a balance between the science and the art of the field. The text illustrates how performance and practice represent the art, while the delineation of the skills and conceptual models represent the science.

Corpses mark surrealism's path through the twentieth century, providing material evidence of the violence in modern life. Though the shifting group of poets, artists, and critics who made up the surrealist movement were witness to total war, revolutionary violence, and mass killing, it was the tawdry reality of everyday crime that fascinated them. Jonathan P. Eburne shows us how this focus reveals the relationship between aesthetics and politics in the thought and artwork of the surrealists and establishes their movement as a useful platform for addressing the contemporary problem of violence, both individual and political. In a book strikingly illustrated with surrealist artworks and their sometimes gruesome source material, Eburne addresses key individual works by both better-known surrealist writers and artists (including André Breton, Louis Aragon, Aimé Césaire, Jacques Lacan, Georges Bataille, Max Ernst, and Salvador Dalí) and lesser-known figures (such as René Crevel, Simone Breton, Leonora Carrington, Benjamin Péret, and Jules Monnerot). For Eburne the art of crime denotes an array of cultural production including sensationalist journalism, detective mysteries, police blotters, crime scene photos, and documents of medical and legal opinion as well as the roman noir, in particular the first crime novel of the American Chester Himes. The surrealists collected and scrutinized such materials, using them as the inspiration for the outpouring of political tracts, pamphlets, and artworks through which they sought to expose the forms of violence perpetrated in the

name of the state, its courts, and respectable bourgeois values. Concluding with the surrealists' quarrel with the existentialists and their bitter condemnation of France's anticolonial wars, Surrealism and the Art of Crime establishes surrealism as a vital element in the intellectual, political, and artistic history of the twentieth century.

keeping, elevating the hobby to a true art form. In *The Art of Keeping Snakes*, de Vosjoli pursues this concept and provides advice for snake keepers who wish to create beautiful displays for their snakes, putting the animals' welfare and quality of life above all else and simultaneously enhancing their own enjoyment in observing their beautiful snakes in naturalistic environments. Beautifully photographed, inspiring, and informative, *The Art of Keeping Snakes* is divided into two parts, the first "A New Way to Keep Snakes," discusses design planning, enclosures and background possibilities, substrates, landscaping, plants, heating/lighting, quarantine and introducing the snakes to the vivarium. This part also includes chapters on feeding, handling, health care, and general maintenance and husbandry. The second part, "Best Display Snakes," presents over thirty different snakes, including photographs, physical descriptions, and tips for selection, handling, vivarium design tips, feeding, and breeding. The snakes in this part are divided into chapters, categorized by pythons, boas, water and garter snakes, hognose snakes, rat snakes, kingsnakes and milksnakes, and others. Resources and index included.

During the high Middle Ages, the tosafists flourished in northern Europe and revolutionized the study of the Talmud. These Jewish scholars did not participate in the philosophical and religious thought that concerned Christendom, and today they are seen as having played a limited role in mystical or esoteric studies. Ephraim Kanarfogel now challenges this conventional view of the tosafists, showing that many individuals were influenced by ascetic and pietistic practices and were involved with mystical and magical doctrines. He traces the presence of these disciplines in the pre-Crusade period, shows how they are intertwined, and suggests that the widely available Hekhalot literature was an important conduit for this material. He also demonstrates that the asceticism and esotericism of the German Pietists were an integral part of Ashkenazic rabbinic culture after the failure of Rashbam and other early tosafists to suppress these aspects of pre-Crusade thinking. The identification of these various forms of spirituality places the tosafists among those medieval rabbinic thinkers who sought to supplement their Talmudism with other areas of knowledge such as philosophy and kabbalah, demonstrating the compatibility of rabbinic culture and mysticism. These interests, argues Kanarfogel, explain both references to medieval Ashkenazic rabbinic figures in kabbalistic literature and the acceptance of certain ascetic and mystical

practices by later Ashkenazic scholars. Drawing on original manuscript research, Kanarfogel makes available for the first time many passages produced by lesser known tosafists and rabbinic figures and integrates the findings of earlier and contemporary scholarship, much of it published only in Hebrew. "Peering through the Lattices" provides a greater appreciation for these texts and opens up new opportunities for scholarship in Jewish history and thought.

Maryland Blue Crab Honor Book 2018 A big, brightly colored, playful introduction to various important painters and art movements. If someone asked you to paint a snowman, you would probably start with three white circles stacked one upon another. Then you would add black dots for eyes, an orange triangle for a nose, and a black dotted smile. But if Picasso painted a snowman... From that simple premise flows this delightful, whimsical, educational picture book that shows how the artist's imagination can summon magic from a prosaic subject. Greg Newbold's chameleon-like artistry shows us Roy Lichtenstein's snow hero saving the day, Georgia O'Keefe's snowman blooming in the desert, Claude Monet's snowmen among haystacks, Grant Wood's American Gothic snowman, Jackson Pollock's snowman in ten thousand splats, Salvador Dali's snowmen dripping like melty cheese, and snowmen as they might have been rendered by J. M. W. Turner, Gustav Klimt, Paul Klee, Marc Chagall, Georges Seurat, Pablita Velarde,

Describes the world's leading approach to art and design taught at Rhode Island School of Design At Rhode Island School of Design students are immersed in a culture where making questions, ideas, and objects, using and inventing materials, and activating experience all serve to define a form of critical thinking—albeit with one's hands—i.e. "critical making." The Art of Critical Making, by RISD faculty and staff, describes fundamental aspects of RISD's approach to "critical making" and how this can lead to innovation. The process of making taught at RISD is deeply introspective, passionate, and often provocative. This book illuminates how RISD nurtures the creative process, from brief or prompt to outcome, along with guidance on the critical questions and research that enable making great works of art and design. Explores the conceptual process, idea research, critical questions, and iteration that RISD faculty employ to educate students to generate thoughtful work Authors are from the faculty and staff of the Rhode Island School of Design, which consistently ranks as the number one fine arts and design college in the United States The Art of Critical Making shows you how context, materials, thought processes, and self-evaluation are applied in this educational environment to prepare creative individuals to produce dynamic, memorable, and meaningful works.

## Peering Over the Edge

The world is full of people who love books. People who not only love to read, but who love to possess and collect books. Since the fifteenth century truly devoted collectors have commissioned their own bookplates, known also as ex libris. Some are straightforward ? a simple label bearing the owner?s name. Others are impressive works of art in miniature. Whether plain or fancy, book plates give an owner a special sense of proud proprietorship. Even more important, they assure that if a cherished book is lent, it has a decent chance of being returned. They are an indulgence of the rich and famous, certainly. And, ?The art of the Bookplate? includes many owned by prominent people such as George Washington, Charlie Chaplin, John F. Kennedy, Joan Crawford J.P. Morgan, Walt Disney, Grace Allen, Otto Bismarck, Albert Einstein, Eleanor Roosevelt, Harry Houdini, Sigmund Freud, Charles Dickens, and Anita Loos. But other bookplate patrons are unknown to us, like Mabel Bishop, whose charming ex libris shows a young woman tending her garden, or Lucius Fisher, whose bookplate, naturally enough, features a fish. In this delightful book James P. Keenan, Director of the American Society of bookplate collectors & Designers, shares many of his favorite bookplates. He explains the history behind each, and discusses the artists ? some as famous as Rockwell Kent and Claes Oldenburg, others as unknown or not ex libris owners are passionate about keeping their book collections intact.
