Time, History, and Literature

Monsters explores questions about the central concept of the monstrous: Why do we create monsters? Are they animal, human, both, or neither? Which of our fears and desires do monsters embody? What can monsters tell us about our cultural and historical moments? How do we cope with the monsters that haunt our imaginations--and our societies? Readings by classic poets, contemporary fiction writers, pop culture critics, philosophers, psychologists, occultists, veterinarians, ethicists, historians, and others take up these questions and more. Questions and assignments for each selection provide a range of activities for students to write about vampires, werewolves, zombies, mermaids, serial killers, classic horror movie monsters, and more strange things that go bump in the night. The Bedford Spotlight Reader Series is an exciting line of single-theme readers, each reflecting Bedford's trademark care and quality. An editorial board of a dozen compositionists at schools with courses focusing on specific themes assists in the development of

the series. Each reader collects thoughtfully chosen selections sufficient for an entire writing course--about 35 pieces--to allow instructors to provide carefully developed, high-quality instruction at an affordable price. Bedford Spotlight Readers are designed to help students from all majors make sustained inquiries from multiple perspectives, opening up topics such as borders, food, gender, happiness, humor, language, music, science and technology, subcultures, and sustainability, to critical analysis. The readers are flexibly arranged in thematic chapters, with each chapter focusing in depth on a different facet of the central topic. Instructor support at macmillanlearning.com includes sample syllabi and additional teaching resources.

The Bedford Guide for College Writers

How serious are the threats to our environment? Here is one measure of the problem: if we continue to do exactly what we are doing, with no growth in the human population or the world economy, the world in the latter part of this century will be unfit to live in. Of course human activities are not holding at current levels—they are accelerating, dramatically—and so, too, is the pace of climate disruption, biotic impoverishment, and toxification. In this book Gus Speth, author of *Red Sky at Morning* and a widely respected environmentalist, begins with the observation that the environmental community has grown in strength and sophistication, but the environment has continued to decline, to the point that we are now at the edge of catastrophe. Speth contends that this situation is a severe indictment of the economic and political system we call modern capitalism. Our vital task is now to change the operating instructions for today's destructive world economy before it is too late. The book is about how to do that.

Understanding Photojournalism explores the interface between theory and practice at the heart of photojournalism, mapping out the critical questions that photojournalists and picture editors consider in their daily practice and placing these in context. Outlining the history and theory of photojournalism, this textbook explains its historical and contemporary development; who creates, selects and circulates images; and the ethics, aesthetics and politics of the practice. Carefully chosen, international case studies represent a cross section of key photographers, practices and periods within photojournalism, enabling students to understand the central questions and critical concepts. Illustrated with a range of photographs and case material, including interviews with contemporary photojournalists, this book is essential reading for students taking university and college courses on photography within a wide range of disciplines and includes an annotated guide to further reading and a glossary of terms to further expand your studies.

The Bridge at the Edge of the World

Presented as a discussion of nearly all the popular critical literary theories, this study provides examples of their application to a selection of well-known literary works. A number of approaches are considered as well as the traditional.

Frankenstein

In an era of rising nationalism and geopolitical instability, Megan Fernandes's *Good Boys* offers a complex portrait of messy feminist rage, negotiations with race and travel, and existential dread in the Anthropocene. The collection follows a restless, nervy, cosmically abandoned speaker failing at the aspirational markers of adulthood as she flips from city to city, from enchantment to disgust, always reemerging—just barely—on the trains and bridges and bar stools of New York City. A child of the Indian ocean diaspora, Fernandes enacts the humor and devastation of what it means to exist as a body of contradictions. Her interpretations are muddled. Her feminism is accusatory, messy. Her homelands are theoretical and rootless. The poet converses with goats and throws a fit at a tarot reading; she loves the intimacy of strangers during turbulent plane rides and has dark fantasies about the “hydrogen fruit” of nuclear fallout. Ultimately, these poems possess an affection for the doomed: false beloveds, the hounded earth, civilizations intent on their own ruin. Fernandes skillfully interrogates where to put our fury and, more importantly, where to direct our mercy.

Case Studies in Contemporary Criticism

Offering a broad survey of drama from the ancient Greeks to the present — including many new contemporary prize-winners — *The Bedford Introduction to Drama* has the plays you want to teach in a collection flexible enough to serve your needs in a variety of courses. Fifty-four chronologically arranged plays are

illuminated by insightful commentaries and casebooks that enrich students' contextual understanding and encourage critical thinking. Concise introductions for each historical period and play emphasize theater design, staging, and acting style, and a wealth of photographs and illustrations help students visualize plays in performance. A fresh new design highlights the rich contextual features and additional help for students including a guide to writing about drama, a glossary, and new cross-references to a robust companion Web site.

Bedford Glossary of Critical and Literary Terms 3e & Bedford Companion to Shakespeare 2e & Tempest 2e

From the winner of the Nobel Prize in Literature and author of the Booker Prize-winning novel *The Remains of the Day*, here is the story of Etsuko, a Japanese woman now living alone in England, dwelling on the recent suicide of her daughter. In a novel where past and present confuse, she relives scenes of Japan's devastation in the wake of World War II.

How to Interpret Literature

The heart of Buddha's teachings is unconditional love and compassion. In this inspired explanation of the popular Buddhist poem *Training the Mind in Seven Points*, Geshe Kelsang reveals powerful and far-reaching methods for us to develop these altruistic states. Ancient meditative techniques that have been tried and tested for centuries are brought alive and made relevant to our everyday experiences. Also included is a practical and uplifting explanation of how we can transform our day-to-day living—including even the most demanding and difficult conditions—into opportunities for personal and spiritual development. By pointing the way to an unchanging freedom and happiness, this immensely readable book challenges us to grow, and will have a remarkable impact on our life.

The Things They Carried

Story-Based Inquiry: A Manual for Investigative Journalists

Written when Mary Shelley was only nineteen-years old, this tale of a young scientist's desire to create life still resonates. Victor Frankenstein's monster is stitched together from the stolen limbs of the dead, and the result is a grotesque being who, rejected by his maker, sets out on a journey to seek his revenge. Shelley confronts the limitations of science, the nature of human cruelty and the pathway to forgiveness with language and imagery.

The Bedford Glossary of Critical and Literary Terms

Many of the 700 traditional and contemporary critical and literary terms succinctly presented in this book have never been covered before. Extensively cross-referenced, the alphabetically arranged entries are defined with unusual brevity and illustrated with hundreds of examples drawn from both canonical literature and contemporary popular culture. The glossary is expressly designed to reflect how literature and criticism are taught today, making this an indispensable reference which will be used for years to come.

Poetic Designs

A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a groundbreaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

Frankenstein

A Handbook of Critical Approaches to Literature

The birth of Jesus has been well chronicled, as have his glorious teachings, acts, and divine sacrifice after his thirtieth birthday. But no one knows about the early life of the Son of God, the missing years -- except Biff, the Messiah's best bud, who has been resurrected to tell the story in the divinely hilarious yet heartfelt work "reminiscent of Vonnegut and Douglas Adams" (Philadelphia Inquirer). Verily, the story Biff has to tell is a miraculous one, filled with remarkable journeys, magic, healings, kung fu, corpse reanimations, demons, and hot babes. Even the considerable wiles and devotion of the Savior's pal may not be enough to divert Joshua from his tragic destiny. But there's no one who loves Josh more -- except maybe "Maggie," Mary of Magdala -- and Biff isn't about to let his extraordinary pal suffer and ascend without a fight.

The Story and Its Writer

A comprehensive reference to short fiction from Great Britain, Ireland, and the British Commonwealth. With approximately 450 entries, this A-to-Z guide explores the literary contributions of such writers as Joseph Conrad, James Joyce, D H Lawrence, Rudyard Kipling, Oscar Wilde, Katherine Mansfield, Martin Amis, and

others.

Monsters

To err is human. Yet most of us go through life assuming (and sometimes insisting) that we are right about nearly everything, from the origins of the universe to how to load the dishwasher. In *Being Wrong*, journalist Kathryn Schulz explores why we find it so gratifying to be right and so maddening to be mistaken. Drawing on thinkers as varied as Augustine, Darwin, Freud, Gertrude Stein, Alan Greenspan, and Groucho Marx, she shows that error is both a given and a gift—one that can transform our worldviews, our relationships, and ourselves.

Understanding Photojournalism

Reading, writing, and the study of literature

Erich Auerbach (1892-1957), best known for his classic literary study *Mimesis*, is celebrated today as a founder of comparative literature, a forerunner of secular criticism, and a prophet of global literary studies. This book presents a selection of Auerbach's essays, many of which are little known outside the German-speaking world.

Bedford Glossary of Critical & Literary Terms

Revised to reflect critical trends of the past 15 years, the third iteration of this widely adopted critical edition presents the 1831 text of Mary Shelley's *English Romantic novel* along with critical essays that introduce students to *Frankenstein* from contemporary psychoanalytic, Marxist, feminist, gender/queer, postcolonial, and cultural studies perspectives. The text and essays are complemented by contextual documents, introductions (with bibliographies), and a glossary of critical and theoretical terms. In the third edition, three of the six essays are new, representing recent gender/queer, postcolonial, and cultural theories. The contextual documents have been significantly revised to include many images of *Frankenstein* from contemporary popular culture.

The Poetry 3e + Bedford Glossary of Critical And Literary Terms 2e And Tempest + Jane Eyre

There are numerous introductions to poetry and prosody available, but none at once so comprehensive and so accessible as this. With the increasing emphasis on free verse, the past generation has developed a widespread impression that the study of poetic meter is old fashioned—or even that form ‘doesn’t matter’ in poetry. It is an impression that has not been dispelled by the emphasis of some of

the existing texts in the area on forms that are now rare or outmoded. The irony is that simultaneously in the past decade interest in formal matters among many poets and literary scholars has been on the increase; the reality is that prosody is today on the cutting edge of literary studies. Stephen Adams' text provides a full treatment of traditional topics, from the iambic pentameter through other accentual-syllabic rhythms (trochaic, dactylic and so on) and covering as well other metrical types, stanza structure, the sonnet and other standard forms. Adams also includes a variety of topics not covered in most other introductions to the topic; perhaps most significantly, he provides a full chapter on form in free verse. Moreover, he treats rhyme extensively and includes a comprehensive chapter on literary figures. *Poetic Designs* is thus much more than an introduction to prosody; it is a concise but comprehensive introduction to the nature of poetry in English. It is a book for the general reader and the aspiring writer as well as for the student, a book intended (in the words of the author) to help 'heighten the experience of poetry.'

Approaching Great Ideas

A Glossary of Literary Terms

"Distinguished in the market by its ability to mesh accessibility and intellectual rigor, *How to Interpret Literature* offers a current, concise, and broad historicist survey of contemporary thinking in critical theory. Ideal for upper-level undergraduate courses in literary and critical theory, this is the only book of its kind that thoroughly merges literary studies with cultural studies, including film. Robert Dale Parker provides a critical look at the major movements in literary studies since the 1930s, including those often omitted from other texts. He includes chapters on New Criticism, Structuralism, Deconstruction, Psychoanalysis, Feminism, Queer Studies, Marxism, Historicism and Cultural Studies, Postcolonial and Race Studies, and Reader Response. Parker weaves connections among chapters, showing how these different ways of thinking respond to and build upon each other. Through these exchanges, he prepares students to join contemporary dialogues in literary and cultural studies. The text is enhanced by charts, text boxes that address frequently asked questions, photos, and a bibliography"--
