The Truth About Evocation of Spirits by Donald Michael Kraig reveals the real secrets of communicating with non-physical entities. You will find that many of the things you've seen in novels or movies aren't needed: no fancy apparatus, no hypnotic trances. With this small book, evoking spirits becomes something you can do. You'll discover what evocation really is. You'll learn a bit about its history and why the ancient grimoires describing it are full of traps and things to waste your time. Here you will learn, step-by-step, everything you need to contact spirits described in ancient texts such as The Lesser Key of Solomon the King. First, you'll need to prepare. This simply involves determining which spirit you wish to call, making a copy of its "sigil" (signature), and also constructing a place for it to appear: the Triangle of the Art. Then gather some common items such as candles, paper, and pen and, with the help of this book, you can do this magick! When you have everything, you are ready to begin. Start with a banishing. Here you will find a complete version of the famous Lesser Banishing Ritual of the Pentagram. Next, the seer inhales incense. This alters that person's consciousness so he or she is ready to see the entity. Then call on the entity according to the instructions given here. Then you ask for information which is in the nature of the spirit to give. Or you can ask the entity you've evoked to do something that it

is capable of doing. Of course, it is only fair to give something to the creature in return. That something is magical or spiritual energy. This book explains how you can create that energy and send it to the entity. Finally, you'll learn how to release the spirit you have evoked back to its home. Never before has so much information been packed into such a small space. If you want to learn this ancient science, get your copy today!

A century ago, Celtic groups descending from the famed Hermetic Order of the Golden Dawn pioneered a fascinating form of ceremonial magic invoking Pagan Celtic powers instead of relying on the more commonly used Judeo-Christian names and symbols. Those groups disappeared many decades ago, and their teachings were lost. But today, their legacy has been reborn. Respected occult author and Grand Archdruid John Michael Greer has re-created a complete magical system based on the Celtic Golden Dawn traditions. This new book provides students with a complete curriculum of Druidical magic and occult wisdom, including training in ceremonial magic, meditation, pathworking, divination, geomancy, and herbal alchemy, allowing self-initiation into the three degrees of Ovate, Bard, and Druid. Structured to resemble a long-lost correspondence course, *The Celtic Golden Dawn* presents a series of knowledge lectures, meditations, and rituals leading to mastery of the most important magical techniques.

### **The Golden Dawn**

Over the years many myths have built up about one of the founders of the Golden Dawn, Samuel L. MacGregor Mathers. Many of these have been created by those who wish to damn the Golden Dawn and its system of magic or by those who want to naively believe a bogus magical story about the Order and its founders. In *King Over the Water*, Golden Dawn magician Nick Farrell paints a picture of the founders of the Golden Dawn becoming out of their depth as the Order began to create magicians. Rather than painting Mathers as an eccentric genius, Farrell sees him as an autocratic fantasist. He sees Mathers struggling to keep up as his students rapidly became better than him at the system he created, and shows

how he was unable to raise his game to help the Order develop further. In what is a portrait of the problems that could befall any esoteric leader, Farrell (author of *Gathering The Magic*, a textbook on magical group dynamics) reveals how Mathers' later rituals were an attempt to remove the magic from the system he created so that he could milk it for money. Included are previously unpublished papers from Mathers' own version of the Golden Dawn, the Alpha et Omega, including the original Z documents, the full version of the Book of the Tomb (a key document for creating a Vault of the Adepts), the original method for the consecration of the sword, and much more. *King Over the Water* is the prequel to Farrell's groundbreaking expose on the Alpha et Omega, Mathers' Last Secret, and provides another look into the mind of a magician that helped develop the magic we use today.

### **Evocation of Spirits**

The Golden Dawn flourished in Great Britain and France beginning in 1887. Its structure and rites appear to have come from the German order, Orden des Gold-und Rosenkreuz. In the Golden Dawn one studied Qabalah, astrology, tarot divination, geomancy, scrying, astral travel, alchemy, Ancient Egyptian religion, Theurgy, Freemasonry, Alchemy, Enochian magic, Christian mysticism, etc. It flourished until the London Adepts rebelled against their leader.

This act of betrayal destroyed the Order, fragments of which carried on under other names. It is the opinion of the current editor that this rebellion destroyed the Golden Dawn for all time. Although other orders practiced its system, they were not the Golden Dawn, and more modern attempts to revive the Golden Dawn are simply not that Order; too much time has passed. This edition features illustrations of all officers' robes, brand new temple diagrams, and illustrations of all temple implements.

### **Operation Golden Dawn**

This book contains the 36 pivotal papers given to Adepts in the original Golden Dawn order, providing key insights and instructions into the theory and practice of magic, from theurgy, imagination and symbolism to clairvoyance, divination and telesmatic images. For the first time these texts are brought together in a single printed volume, along with some rare administrative versions that were all but ignored by modern eyes. In addition, extensive and insightful commentaries from modern Golden Dawn magicians from a variety of orders are here provided, adding to the corpus of teaching provided in the Flying Rolls themselves. ## **The Golden Dawn and Other Stories**

From Shirley MacLaine's spiritual biography *Out on a Limb* to the teenage witches in the film *The Craft*, New Age and Neopagan beliefs have made sensationalistic headlines. In the mid- to late 1990s, several important scholarly studies of the New Age and Neopagan movements were published, attesting to academic as well as popular recognition that these religions are a significant presence on the contemporary North American religious landscape. Self-help books by New Age channelers and psychics are a large and growing market; annual spending on channeling, self-help businesses, and alternative health care is at \$10 to \$14 billion; an estimated 12 million Americans are involved with New Age activities; and American Neopagans are estimated at around 200,000. *New Age and Neopagan Religions in America* introduces the beliefs and practices behind the public faces of these controversial movements, which have been growing steadily in late twentieth- and early twenty-first-century America. What is the

New Age movement, and how is it different from and similar to Neopaganism in its underlying beliefs and still-evolving practices? Where did these decentralized and eclectic movements come from, and why have they grown and flourished at this point in American religious history? What is the relationship between the New Age and Neopaganism and other religions in America, particularly Christianity, which is often construed as antagonistic to them? Drawing on historical and ethnographic accounts, Sarah Pike explores these questions and offers a sympathetic yet critical treatment of religious practices often marginalized yet soaring in popularity. The book provides a general introduction to the varieties of New Age and Neopagan religions in the United States today as well as an account of their nineteenth-century roots and emergence from the 1960s counterculture. Covering such topics as healing, gender and sexuality, millennialism, and ritual experience, it also furnishes a rich description and analysis of the spiritual worlds and social networks created by participants.

This volume is the first comprehensive examination of one of the twentieth century's most distinctive iconoclasts. Aleister Crowley (1875-1947) was a study in contradictions. Born into a fundamentalist Christian family and educated at Cambridge, he was vilified as a traitor, drug addict, and debaucher, yet revered as perhaps the most influential thinker in contemporary esotericism. Moving beyond the influence of contemporary psychology and the modernist understanding of the occult, Crowley declared himself the revelator of a new age of individualism. Crowley's occult bricolage, Magick, was an eclectic combination of spiritual exercises drawn from Western European magical ceremonies and Indic sources for meditation and yoga. This journey of self-liberation culminated in

harnessing sexual power as a magical discipline, a "sacrilization of the self" as practiced in Crowley's mixed masonic group, the Ordo Templi Orientis. The religion Crowley created, Thelema, legitimated his role as a charismatic revelator and herald of a new age of freedom. Aleister Crowley's lasting influence can be seen in the counter-culture movement of the late 1960s and early 1970s and in many forms of alternative spirituality and popular culture. The essays in this volume offer crucial insight into Crowley's foundational role in the study of Western esotericism, new religious movements, and sexuality.

## **The Magician of the Golden Dawn**

HIDDEN TREASURES OF THE GOLDEN DAWN Spiritual Insights, Hermetic Teaching and a little Magic A Series by Rick Falconer Volume I: We call thee to the Gentle Light. Foreword by Charles "Chic" Cicero and Sandra "Tabatha" Cicero These volumes are no beginner's guides, for you are no beginner. They form an indispensable spiritual aid as sign posts, lending direction to the traveller with an inclination and interest in the Golden Dawn as a system, promoting a spiritual elevation through a magical discipline.

Written a little differently, they do not form a historical account, nor will you find in their context the nature of an academic discourse. This is where these volumes come into their own; written for you from within the system itself as an expression of the spirit for the spirit - your spirit, that they will find you their equal as a companion if you will allow.

Complimentary to the teachings within the system and such works as Regardie's Golden Dawn and the Cicero's Self Initiation Manual, they unravel and unveil many a paradox along their way, as you journey through an experiential mystical alchemical infusion. The opportunity is thus upon you through the Great Work to banish the facade of your intellect by continually invoking understanding toward a deeper insight. To disclose the truths to yourself and realise why you are no beginner. As you find yourself to be the unfurling of a rose you have deep down, always known to be."
