The CISG

Written by an excellent, highly experienced and motivated team of lecturers, this textbook is based on one of the most successful courses in catalysis and as such is tried-and-tested by generations of graduate and PhD students, i.e. the Catalysis-An-Integrated-Approach (CAIA) course organized by NIOK, the Dutch Catalysis research school. It covers all essential aspects of this important topic, including homogeneous, heterogeneous and biocatalysis, but also kinetics, catalyst characterization and preparation, reactor design and engineering. The perfect source of information for graduate and PhD students in chemistry and chemical engineering, as well as for scientists wanting to refresh their knowledge

Parallel Journeys

This work includes a revised multimedia package and updated cultural information presented in the Correspondence feature and in the new Bienvenue dans le monde francophone feature that recurs after every four chapters in the text. Its overall aim is to promote a balanced four-skills approach to learning French through a variety of listening, speaking, reading, and writing activities, while introducing students to the diversity of the francophone world.

Dangerous Acquaintances

Picture going to college in the sixties: the protests and marches, the teach-ins and sit-ins, the drugs, sex, and rock 'n' roll hip, electric, psychedelic. Not so fast, says bestselling historian John R. Thelin. Even at radicalized campuses, volatile student demonstrations coexisted with the "business as usual" of a flagship state university: athletics, fraternities and sororities, and student government. In Going

to College in the Sixties, Thelin reinterprets the campus world shaped during one of the most dramatic decades in American history. Reconstructing all phases of the college experience, Thelin explores how students competed for admission, paid for college in an era before Pell Grants, dealt with crowded classes and dormitories, voiced concerns about the curriculum, grappled with new tensions in big-time college sports, and overcame discrimination. Thelin augments his anecdotal experience with a survey of landmark state and federal policies and programs shaping higher education, a chronological look at media coverage of college campuses over the course of the decade, and an account of institutional changes in terms of curricula and administration. Combining student memoirs, campus publications, oral histories, and newsreels, along with archival sources and institutional records, the book goes beyond facile stereotypes about going to school in the sixties. Grounded in social and political history, with a scope that will appeal both to a new generation of scholars and to alumni of the era, this engaging book allows readers to consider "going to college" in both the past and the present.

Designed specifically for one-semester intermediate French programs, SUR LE VIF, International Edition offers a contextualized review of the fundamentals, adding just enough new material to expand the language skills of French learners without overwhelming them. The textbook is divided into an in-class conversation manual and an out-of-class grammar reference, giving the flexibility to choose among readings, activities, and grammar practice to meet the varied needs of intermediate students. In nine short chapters, SUR LE VIF encompasses a full-length intermediate course with its provocative readings, active grammar review, and updated cultural notes. The program also takes into account the importance of audio and visual elements: the "Prélude" (before Chapter 1), two "Interludes" (after Chapters 3 and 6), and "Postlude" (after Chapter 9) contain new songs and follow-up activities. The accompanying video program, featured on the new Premium Website, adds a visual component. By skillfully weaving grammar review into thought-provoking chapter themes, SUR LE VIF provides a solid review of first-year French while adding refinements for improved skills in reading, listening, composition, and conversation.

White Space Is Not Your Enemy

Learning is the foundation of the human experience. It begins at birth and never stops, a continuous and malleable link across life stages of human development. Disparities in learning access and outcomes around the world have deep

consequences for income, social mobility, health, and well-being. For international development practitioners faced with today's unprecedented environmental and geopolitical pressures, learning should be viewed as a touchstone and target for those seeking to truly effect global change. This book traces the path of international development work—from its pre-colonial origins to the emergence of economics as the dominant discipline in the field—and lays out a new agenda for policymakers, researchers, and practitioners, from early education through adulthood. Learning as Development is an attempt to rethink international education in a changing world.

Passing on the Right

" there is a lack of a clear and simple exposition of the CISG for students and practitioners. That is the role of the current book, which it fills admirably. All of the issues that have been raised in the cases and the literature are considered, but without excessive detail. This is a book that will do much to make the CISG an easily understandable text for all users, student and practitioner alike." Preface by Professor Eric E. Bergsten

U.S. Tax Guide for Aliens

This book explains the EU's climate policies in an accessible way, to demonstrate the step-by-step approach that has been used to develop these policies, and the ways in which they have been tested and further improved in the light of experience. The latest changes to the legislation are fully explained throughout. The chapters throughout this volume show that no single policy instrument can bring down greenhouse gas emissions. The challenge facing the EU, as for many countries that have made pledges under the Paris Agreement, is to put together a toolbox of policy instruments that is coherent, delivers emissions reductions, and is cost-effective. The book stands out by the fact it covers the EU's emissions trading system, the energy sector and other economic sectors, including their

development in the context of international climate policy. This accessible book will be of great relevance to students, scholars and policy makers alike.

Vocabulary for the High School Student

Going to College in the Sixties

Vis-a-vis engages students with its unique integration of contemporary culture and communicative building blocks, providing the tools they need to build a solid foundation in introductory French. The proven qualities of Vis-a-vis are well known: an easy-to-navigate chapter structure with four lessons in which vocabulary, grammar, and culture work together as integrated units; an abundance of practice activities that range from form-focused to communicative; a balanced approach to the four skills; diverse coverage of the Francophone world that includes an outstanding video program featuring bloggers and cultural footage from eight different Francophone regions. These features support the core goals of the introductory French course - communicative and cultural competence - and lay the groundwork for student success.

Sur Le Vif

Few seem to think conservatives should become professors. While the left fears an invasion of their citadel by conservatives marching to orders from the Koch brothers, the right steers young conservatives away from a professorial vocation by lampooning its leftism. Shields and Dunn quiet these fears by shedding light on the hidden world of conservative professors through 153 interviews. Most conservative professors told them that the university is a far more tolerant place than its right-wing critics imagine. Many, in fact, first turned right in the university itself, while others say they feel more at home in academia than in the Republican Party. Even so, being a conservative in the progressive university can be challenging. Many professors admit to closeting themselves prior to tenure by passing as liberals. Some openly conservative professors even say they were badly mistreated on account of their politics, especially those who ventured into politicized disciplines or expressed culturally conservative views. Despite real challenges, the many successful professors interviewed by Shields and Dunn show that conservatives can survive and sometimes thrive in one of America's most progressive professions. And this means that liberals and conservatives need to rethink the place of conservatives in academia. Liberals should take the high road

by becoming more principled advocates of diversity, especially since conservative professors are rarely close-minded or combatants in a right-wing war against the university. Movement conservatives, meanwhile, should de-escalate its polemical war against the university, especially since it inadvertently helps cement progressives' troubled rule over academia.

The fourth edition of Vis-à-vis continues the excitement of the innovative third edition with an expanded emphasis on the Francophone world in both the print and media supplements. In the textbook, the new Blog section (which appears in the middle of each chapter) features contemporary language and French and Francophone culture presented in the personal blogs of four characters with different Francophone backgrounds, followed by commentaries by French-speakers from all over the world. Blogs, which are online personal journals, have become

hugely popular around the world, and particularly in France where there are approximately three million blogs in existence today. Our new Video Program, filmed specifically for this fourth edition of *Vis-à-vis*, builds on the stories of each character while serving to support and expand upon the linguistic and cultural content of the chapter as a whole. The *Bienvenue dans le monde francophone* feature that recurs after every four chapters in the textbook has been broadened to include Louisiana, Morocco, Switzerland, and Tahiti. Minor changes have been made to the scope and sequence. The overall goal of the revision remains the same as that of the third edition: to promote a balanced four-skills approach to learning French through a wide variety of listening, speaking, reading, and writing activities, while introducing students to the richness and diversity of the Francophone world. A beautiful new contemporary design gives *Vis-à-vis* an appealing look, inspired by real-life personal blogs that are unique and visually stunning.

Students learn best when they are connecting- with authentic culture, with each other as a community, and with the language as used in real-world settings. En avant! sparks the curiosity that builds these connections as students drive toward communicative and cultural confidence and proficiency in the introductory classroom. The En avant! program is built around the following distinctive principles: Focused approach: En avant! concentrates on what introductory French students can be reasonably expected to learn, allowing for sustained engagement with the material that respects the natural process of language acquisition. A reduced grammar scope leaves more time for the systematic review and recycling of vocabulary and grammar required for students to achieve mastery of first-year skills. Grammar topics that were deemed of secondary importance by our many reviewers are presented in the Par la suite section at the end of the book to allow maximum flexibility for those instructors who wish to extend their coverage of the grammar. Fortifying the acquisition process at every turn is LearnSmart™, evolutionary adaptive technology that builds a learning experience unique to each student's individual needs. Through LearnSmart, students engage in targeted vocabulary and grammar practice so they are prepared to come to class ready to communicate. Active learning: En avant! gives students the opportunity to explore language and culture through interactive activities that keep them focused and engaged. Vocabulary and grammar in En avant! is taught using an active learning

approach, nudging students to discover new vocabulary and language rules through a carefully balanced mix of inductive and explicit presentations and hands-on learning in the Communication en direct video section that begins each chapter, as well as in the Vocabulaire interactif and Grammaire interactive presentations. Integration of culture: Building on the active learning theme, students develop and apply critical-thinking skills in their analysis of the cultural trends and cultural products that are richly presented in En avant! The Communication en direct videos allow students to not only hear the language but to observe how the language is spoken in a cultural context. Vocabulary and grammar are often presented or practiced within a cultural context, and throughout each chapter, students are encouraged to make cross-cultural comparisons by responding to the thought-provoking questions such as those posed in the new Et chez vous? feature that accompanies the Chez les Français and Chez les Francophones texts. The culminating section of the chapter Culture en direct presents culture at the discourse level through cultural video presentations, authentic texts, feature-film clips, and songs, all related to the chapter theme. The stunning Salut de... video segments, shot in Paris, Montréal, Louisiana, Tunisia, and Tahiti, also provide windows into the diverse cultures of the Francophone world. Mobile Tools for Digital Success: Connect French, McGraw-Hill's digital teaching and learning environment, is now mobile enabled for tablets, allowing students to engage in their course material via the devices they use every day. The digital tools available in the Connect French platform facilitate student progress by providing extensive

opportunities to practice and hone their developing skills. These learning opportunities include online communicative activities, instant feedback, peer-editing writing tools, sophisticated reporting, and a complete e-book with embedded audio, video, and grammar tutorials. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

W. E. B. Du Bois's Data Portraits

Elizabeth Foster examines how French imperialists and the Africans they ruled imagined the religious future of sub-Saharan Africa in the years just before and after decolonization. The story encompasses the transition to independence, Catholic contributions to black intellectual currents, and efforts to create an authentically "African" church.

Since it was first published, French in Action: A Beginning Course in Language and Culture—The Capretz Method has been widely recognized in the field as a model for video-based foreign-language instructional materials. The third edition, revised by Pierre Capretz and Barry Lydgate, includes new, contemporary illustrations throughout and, in the Documents section of each lesson, more-relevant information for today's students. A completely new feature is a journal by the popular character Marie-Laure, who observes and comments humorously on the political, cultural, and technological changes in the world between 1985 and today. The new edition also incorporates more content about the entire Francophone world. In use by hundreds of colleges, universities, and high schools, French in Action remains a powerful educational resource that this third edition updates for a new generation of learners. Part 2 gives students at the intermediate level the tools they need to communicate effectively in French and to understand and appreciate French and Francophone cultures.

Vis-à-vis: Beginning French (Student Edition)

The colorful charts, graphs, and maps presented at the 1900 Paris Exposition by famed sociologist and black rights activist W. E. B. Du Bois offered a view into the lives of black Americans, conveying a literal and figurative representation of "the color line." From advances in education to the lingering effects of slavery, these prophetic infographics —beautiful in design and powerful in content—make visible

a wide spectrum of black experience. W. E. B. Du Bois's Data Portraits collects the complete set of graphics in full color for the first time, making their insights and innovations available to a contemporary imagination. As Maria Popova wrote, these data portraits shaped how "Du Bois himself thought about sociology, informing the ideas with which he set the world ablaze three years later in *The Souls of Black Folk*."

She was a young German Jew. He was an ardent member of the Hitler Youth. This is the story of their parallel journey through World War II. Helen Waterford and Alfons Heck were born just a few miles from each other in the German Rhineland. But their lives took radically different courses: Helen's to the Auschwitz extermination camp; Alfons to a high rank in the Hitler Youth. While Helen was hiding in Amsterdam, Alfons was a fanatic believer in Hitler's "master race." While she was crammed in a cattle car bound for the death camp Aushchwitz, he was a tennage commander of frontline troops, ready to fight and die for the glory of Hitler and the Fatherland. This book tells both of their stories, side-by-side, in an overwhelming account of the nightmare that was WWII. The riveting stories of these two remarkable people must stand as a powerful lesson to us all.
